

Centennial of Frankfort Will Be Observed Sept. 27

Plans are being worked on now for the big centennial celebration of the founding of Frankfort township. The centennial is being sponsored by Fred Warning of Frankfort, the News-Bulletin and others. The date will be Sunday afternoon and evening, September 27, 1931 and the place of the celebration will be the Frankfort grove, one mile north of the Lincoln Highway on Route 51.

All kinds of interesting old time relics will be on exhibition and in addition there will be amusements of various kinds in the afternoon.

The tunes of long ago will be played by the orchestra and there will be real old time dancing afternoon and evening. In addition an old settlers picnic will be a feature.

Prizes will be awarded to the oldest couple on the grove and to the oldest couple dancing. Refreshments will be served. Everyone in this and surrounding communities are invited to help Frankfort celebrate her centennial. This township was first settled in 1831.

Anyone having any old time relics they might wish to exhibit, please get in touch with Mr. Fred Warning at Frankfort or the News-Bulletin office at Mokena. All exhibits will be carefully taken care of and returned safely to the exhibitors.

Come and spend the afternoon as well as the evening in the beautiful grove and meet many old time friends there.

Don't forget the date and place and join in the big centennial celebration.

Mrs. Florence Lauffer, Mokena, Passes On Following Long Illness

Mrs. Florence Lauffer of Mokena who has been an invalid for over two years, died at the home of her daughter, Mrs. Elmer L. Cooper in Mokena Saturday afternoon, attaining the age of 71 years.

She was born in Orland township, November 11, 1859. She was the daughter of the late John and Harriet Sayers. November 27, 1880, she was united in marriage to Nicholas Lauffer of Homer township. Mr. Lauffer passed away two years ago.

The couple resided in the town of Homer for 32 years. They moved to Mokena in 1912.

Mrs. Lauffer is survived by three daughters, Mrs. Harrison Haley of Kempton, Ill., Mrs. Elmer L. Cooper and Mrs. Barney Hostert of Mokena; two sons, Arthur G., and Charles W. Lauffer of Homer township. Two brothers, Benjamin Sayers of Orland and Stephen Sayers of St. Petersburg, Florida and a sister Mrs. Ella Watson of Charles City, Iowa, and ten grandchildren, also survive. One son, Lester, died in 1918.

The funeral services were held on Monday afternoon in the St. John Evangelical church in Mokena at 2 o'clock. The Rev. L. E. Cook, pastor of the Mokena M. E. church and the Rev. Theodore Lapp, pastor of the St. John Evangelical church officiated. The Marley church quartet sang a number of songs. Burial was in the St. John cemetery at Mokena.

Credit Due To Frankfort Men

Special credit is due to Adam Heisner, Walter Pfaff and highway motorcycle policeman Gilbert Knater for making the arrest of three negro chicken thieves at Frankfort a week ago last Friday. The Frankfort men had kept a watch for the negroes after it was learned several Italians had been arrested in Green Garden. The negroes were part of the gang of chicken thieves but when the Italians were caught the negroes beat it for the J road and were leisurely walking into Frankfort the next morning when they were apprehended and placed under arrest by officer Knater. The negroes were taken to the county jail at Joliet.

PALOS ATHLETIC CLUB TO SPONSOR DANCE

The Palos Athletic Club will hold a dance at the Palos Improvement Club House, Saturday, Sept. 26th.

THE NEWS-BULLETIN

Is the only paper which covers this territory thoroughly with a bonifide circulation. It reaches more homes in this community each week than any other paper coming in here and is, therefore, the only logical advertising medium in the entire community.

This paper carries many exclusive news items and stories not found in any other paper. In order to keep posted on the affairs of your own and surrounding communities, be a reader of this paper. For only \$1.50 per year you can be posted weekly on local and county events.

Our job printing department is equipped to print anything from a visiting card to a 100 page book, sale bills or 24x36 inch poster in one or more colors. We also do color printing on stationery, cards or booklets.

Orland Lake Project May Be Made Into Fisherman's Paradise

Ever since the Forest Preserve bought the old McGinnis slough, in 1916, there has been a hope in this part of the county that someday it would be improved and made into a lake suitable for fishing and skating.

Last Tuesday evening, Mrs. Fleming and Mr. Byrd, county commissioners, met with "boosters" of this dream from Orland, Palos, Blue Island, Morgan Park, Lemont, and Chicago Heights and a very interesting discussion ensued.

Widow of Slain Mokena Deputy Taken By Death

Mrs. Ethel Fisher, 34 years old, well known former Mokena resident and widow of the late Walter Fisher, former Mokena merchant and deputy sheriff, died in the Chicago Presbyterian hospital Sunday after an illness of five months with tuberculosis.

Walter Fisher, her husband, was shot and killed on 143rd street near Orland Park, April 14, 1926 during a gun battle with a robber.

The deceased is survived by two daughters, Lucille and Rosalind, 3 brothers, Isadore, Louis and Harry Lewis and a sister Anna, all of Joliet.

Funeral services were held from the Joliet Funeral Home, Monday afternoon at 2 o'clock to the Jewish Synagogue, Burial was in Mt. Moriah cemetery, Joliet.

The deceased was a member of the Mokena R. N. A. camp and members of the Camp attended the funeral.

Voters in New Cong. Dist. Want Wolf Rd. Finished in Will Co.

Interest in the completion of the Wolf road paying from Mokena to the Lincoln highway, a distance of one mile, is as pronounced in Cook County as it is in Will County.

The completion of the one mile of paving in Will County will give Cook County a direct hookup to the south with the Lincoln Highway.

Inasmuch as Cook and Lake Counties are considering Wolf road a very important highway, in fact so much so, that they are carrying on an intensive paving program on this road all along the line north of here it seems too bad that Will County is not making a move to build this mile in spite of the fact

Want Harlem Ave. Extended South

Farmers and others in Orland and Tinley Park territory are much interested now in having Harlem ave. extended from 143rd street south to 183rd street the county line road and later carried on to Lincoln Highway. This is an important highway and it is hoped that the Cook County Highway Department will complete this highway before the 1933 World's Fair.

Big Road Meeting At Orland Saturday

A very important meeting of the Southwest Towns Chamber of Commerce has been called for Saturday night of this week at the Orland Park school auditorium at 8 o'clock daylight saving time. The purpose of the meeting is to perfect the Orland unit of the Southwest Towns Chamber of Commerce. Ray Smith has been authorized by the county officials to purchase the right of way in Cook County for the Southwest highway and this matter also is to be considered.

A Wolf road committee is also to be formed for both Cook and Will counties and chairmen appointed for

S. W. Chamber of Commerce Holds A Rousing Meeting

A rousing meeting of the Southwest Towns Chamber of Commerce was held at Custer Park last Thursday night. After a most delightful dinner served by the ladies of Custer Park in the town hall and selections by the Wilmington band, Mr. Dermott, local chairman called the meeting to order in the open air, there being no building in Custer Park large enough to accommodate the several hundred people assembled. After an address of welcome the meeting was turned over to Dr. Schussler, president of the organization.

In a general way, Dr. Schussler stated the purpose and set-up of the organization. He stated that in order to get the Southwest Highway it is necessary for all of the communities to get together and co-operate by organizing their local organizations. He stated that if the gas tax is used conservatively there should be sufficient revenue to build the Southwest Highway.

Sherman Knox, the secretary of the organization was unable to be present.

The business of the meeting was cut short and was then turned over to the speakers of the evening.

The treasurer's report was read and showed receipts of \$205 and the expenditures \$120.63, leaving a balance of \$87.37.

At this point, Gene Hoerrmann of Manhattan made a motion that all distinguished official guests who are assisting in the work in anyway be made honorary members of the organization. The motion carried.

The next item of business was the selection of a meeting place for the next regular monthly meeting. Mr. Arrow Smith of Gibson City and Mr. Lowry, editor of the Gibson Courier were present and made

ORLAND HIGH SCHOOL TO PUBLISH PAPER

The Orland Park High School has announced they will resume the publication of their high school paper the latter part of this month. The students will edit the paper which will be published the forepart of each month. The paper will be printed at the plant of the News-Bulletin in Mokena.

WORTH GRAVEL PIT RESUMES OPERATIONS

The Worth Gravel Company has resumed operations at their pit near Worth and many carloads of gravel are shipped out each day on the Wabash railroad.

FRANKFORT GIRL VOLLEY BALL TEAM IS WINNER OF FAIR PRIZE

The Frankfort Girls Volley ball team won the first prize in the tournament at the Peotone Fair. The team consists of Bernice, Verna and Florence Weichbrodt, Lola Harnack, Lola and Florence Scheer, Marie Geuther, Evelyn Hossbach, Francis Heuser, Edith Wishover and Dorothy Vollrath.

NEW MOKENA PASTOR IS INSTALLED

In an impressive evening service the Rev. Theo. E. Lapp was installed officially as minister to St. John Evangelical Church last Sunday at 7:45 p. m. Rev. A. B. Gaeb, President of the N. Illinois district delivered an inspiring address, and Rev. E. Busekros of Chicago Heights officiated at the altar. Mrs. Ethel Bibicuff, sister to Rev. Lapp, rendered two beautiful vocal solos.

Tinley Church Observes Fiftieth Birthday Anniversary

On Sunday, September 13th, the Zion Lutheran church at Tinley Park celebrated its fiftieth anniversary. The church interior had been beautifully decorated in manifold shades of gold represented in a profusion of flowers, gathered by members of the Ladies Aid and under the direction of the president, Mrs. A. Schmediknecht. She also presented a wreath of gold which she had made for the occasion.

At the morning service Rev. E. Beyer, Sheboygan, Wis., preached the German sermon and Rev. H. Harms of Chicago, the English sermon. A woman's trio, consisting of Mrs. John Boeyer, Mrs. Fred Goebel and Mrs. Harry Mager, sang a pretty selection in German. The choir closed the service with the jubilate hymn of "Praise God is my Salvation."

In the afternoon at three o'clock, another service was held to which three neighboring congregations and their pastors had been invited. The Sunday school opened this service with the beautiful song "The Lord My Shepherd Is". Following Rev. E. Karsten, of Oak Forest addressed the Sunday school. Mrs. Boeyer sang a solo: "Open the Gates of the Portal", upon which Rev. Prange addressed the women of the congregation. The Ladies Aid responded with the song "Jesus, Still Lead On."

Rev. Ferne of Blue Island addressed the men, admonishing them that the church comes FIRST, ALWAYS and in EVERYTHING. Here upon the choir rendered a very appealing song entitled "The Hour of Prayer".

Rev. Albert Buddenhagen of Zion congregation, spoke the closing words, addressing firstly the three charter members, Mr. H. Vogt, Mr. John Hollstein and Mr. Jacob Funk of whom only two were present. He thanked them for their faithful years of service, and blessed them with the "Blessing of Aaron" wishing them many more years among us. He next read a letter of congratulations from Rev. A. C. Krebs the congregation's first pastor, now at Clinton, Iowa, who could not come. He then gave a brief history of the congregation, and in remembrance of those members and the two former pastors who have gone before and entered the "Church Triumphant" he asked to their memory the song, "O Where is the Home of the Soul to be Found?"

With another selection from the choir and a grateful "Now Thank We all our God" from a multitude of voices, the service came to a close.

The Ladies Aid served refreshments on the lawn.

CLIFTON GUN CLUB SHOOT BIG SUCCESS

The last match held by the Clifton Gun Club proved to be such a success that they held another last Sunday at William Hechts farm in Mokena. The results were very satisfactory despite the fact that there was a strong wind blowing. There were six hundred shots fired. The members present were: A. Zipper, L. Humphreys, G. Cornelius, F. Kerchner, C. Arnold, M. Zipper, C. Hecht and C. Zabransky.

There were many friends of the members present.

ORLAND PARK BAND SEEKS NEW DIRECTOR

Peter DeRoberts who has been director of the Orland Park Community band for about two years, has resigned and has gone to Florida.

The Orland Park band has several candidates for director in view, one from the Joliet High school.

Eastern Will Co. Farmers May Form Vigilantes To Curb Chicken Stealing

Chicken stealing in Eastern Will County has resulted in the loss of 1200 chickens in this section within the last few weeks. With the arrest of the Chicago Heights Italians and negroes a ring of about 25 crooks has been uncovered and many of these are said to be Capone henchmen. Feeling is running high among the farmers in this section and they are planning to organize vigilante societies and shoot to kill every chicken thief caught on their farms. They are determined to stamp out chicken stealing in no uncertain terms. Attorney A. H. Krusemark of Frankfort has offered his services to the farmers subject to their call.

At the Adam Heisner farm the thieves made a big haul of chickens even after the watch dog gave an alarm. When the dog barked furiously Mr. Heisner got up, turned on the light to dress, got his shot gun and went out in the farm yard but found everything all right at the henhouse. The next day however, he discovered most of his laying hens and all of his roosters had been stolen.

Another report comes from Green Garden to the effect that one night a certain farmer was called to the door by two chicken thieves and at

the point of a gun was ordered to remove a burglar alarm from his henhouse so they could steal his chickens and was warned if he ever mentioned this incident they would come back and blow up his family and his home.

At the Christ Lühring farm in Frankfort township chicken thieves were scared away by the hired man who happened to be lying on the lawn one night. He heard a noise in the yard and called out who was there. There was no response. Examination showed no chickens had been stolen.

Another report comes from Coopers Grove where chicken thieves made a raid on the chicken house of the pastor of the Coopers Grove Lutheran church. The thieves left a sign written in German in the hen house which translated into English read "God is over all but not in the minister's chickenhouse."

Reports from Bremen township are that pigs and calves are being slaughtered on farms at night and hauled away in trucks. On the John Faherholz farm it is reported six pigs were driven into a field, killed and hauled away during the night. On the John Breitbarth farm a calf is reported to have been slaughtered by the thieves and stolen.

Final Rites for Tinley Park Motorcycle Policeman Are Attended by Great Crowd

Headed by a squadron of Cook County and State Highway motorcycle police, a funeral procession in which were 102 automobiles wended its way down Oak Park avenue thru Tinley Park Wednesday to the Tinley Park German M. E. church two and a half miles northwest of Tinley Park, when one of its well known and popular son, Merrill Bettenhausen, member of the Cook County motorcycle police force stationed at Homewood, was laid to his final rest.

When the funeral procession arrived at the quiet country church, every available parking space was crowded with automobiles and a great concourse of people was standing in front of the church and in the adjoining cemetery. The church was far too small to hold the great crowd which had gathered to pay their final respects to the young officer. Sheriff Meyer of Cook County was also present as also were people from Harvey, Blue Island, Orland Park, Homewood, Mokena, Frankfort, Manteno and other cities and towns. It is estimated that fully over 1200 persons attended these rites.

Brother motorcycle police with whom the deceased had worked the past few years, served as pall bearers. There were four automobile loads of flowers and a floral lane was formed by the policeman leading into the church and from the edifice to the grave at the close of the funeral service.

It is said that this was the largest funeral held in all the seventy years of the existence of the Tinley Park German M. E. church.

Rev. Theodore A. Loepfert, pastor of this church officiated.

Merrill Bert Bettenhausen, was born October 24th, 1906, in Tinley Park, the son of John and Anna Bettenhausen and was baptised Feb. 23, 1908 by Rev. Alvine D. Schussler of the Tinley Park German M. E. church.

He attended the Tinley public school after which he worked on the family farm. In March of 1929 he entered the service of the Highway Police of Cook County in which capacity he was employed until the time of his death.

He died Saturday September 12th after a short and an acute illness of only four days. Wednesday night, September 9th he underwent an operation for appendicitis at the St. James hospital, Chicago Heights and two days later the attending physician found another operation necessary, in the course of which he died. Miss Catherine Hickey, a close friend of his, nursed him unselfishly until the end.

The departed leaves to mourn his loss, his father John Bettenhausen, Blue Island, two brothers Harold and Irvin in whose family he made his home. His mother died July 5th 1922. Other survivors are his grandmother, Mrs. C. C. Bettenhausen, Mrs. Minnie Bettenhausen, wife of Irvin Bettenhausen, and their two children, Irvin and Anita, as well as a large number of other relatives and friends. His sister Anita died in 1919 and an infant sister Bernice and an infant brother also preceded him in death.

Merrill Bettenhausen was well known in this section of the country and was loved and respected by many who worked and lived with him. May he rest in peace and may his death be an admonition and comfort to all of us.

Burial took place in the German M. E. cemetery.

MOKENA P. T. A. WILL MEET

The Mokena P. T. A. will meet at the school auditorium on Tuesday Sept. 22, at 3:30 p. m.

Hold Final Rites For Alburn Steele

Final rites for Albert Steele of Mokena who met a tragic death last Thursday morning in a motor cycle and automobile collision on 159th & Keane ave., were held at the West End Funeral Home in Chicago Heights last Saturday noon. A large number of Mokena people attended the services. Rev. E. L. Cook, pastor of the Mokena M. E. church preached the funeral sermon. The following selections were sung by Mrs. Carl Hirsch of Chicago Heights and her sister, Miss Boyd of Joliet:

"Some day we will understand", "I would be true" and "Crossing the bar."

The floral offerings were profuse and beautiful.

Burial was in the Rosehill cemetery, Chicago.

Alburn Steele was born October 5, 1902 at Bear Lake, Michigan. October 8, 1928, he was united in marriage with Mrs. Florence Lauffer. He resided in Mokena ever since.

Surviving him are his deeply beloved widow, the following children, Bristol, George, Alice, Oliver, and Adelaide; his parents, Mr. and Mrs. Frank O. Steele of Traverse City, Michigan; three brothers, Harvey, Frank, R. A. five sisters, Etta, Rose, Jennie, Edith, Emmaline and other relatives. Mr. Steele was well liked and much esteemed and the community mourns his tragic and untimely death.

Cook County Health Nurse Gives Helpful And Timely Hints

Owing to so much misunderstanding in regards to the State laws on communicable diseases, I have been asked to explain some of them.

This week it will be whooping cough.

1. Every case and suspected case shall be reported immediately to the local and state health authorities.

2. Shall be investigated to determine source of infection and contacts.

3. Shall be placarded.

4. Shall be excluded from school and all public gatherings until termination of quarantine.

5. Shall be under quarantine for at least four weeks, after the first two weeks the child may play in its own yard or ride in an automobile, providing he does not come in contact with other children.

It is best to have the child examined by a doctor before releasing him from quarantine.

All now immune children, who have been in close association with the patient shall be quarantined as contacts for the incubation period of the disease ten days, dating from time of the last exposure. They may stay in their own yard provided they do not come in contact with other children.

Immune to whooping cough means any one who has had whooping cough.

Immune children need not be excluded from school, providing they do not come in contact with patient.

Parents are advised to guard patients against danger of pneumonia.

IRENE O'CONNOR, R. N.

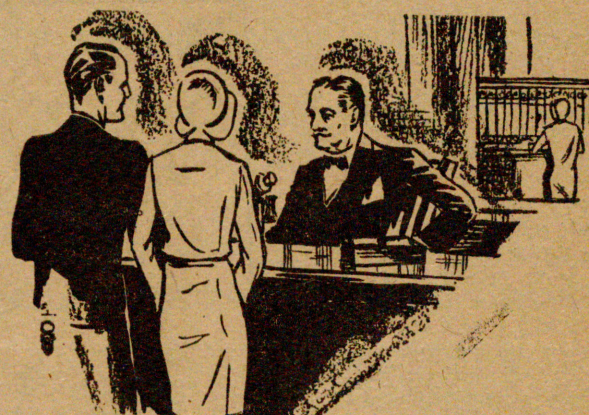

Bureau of Public Welfare.

CHAPTER LIV—Continued.

The Thirty-third division (Bell) was still with the British when the combined attack of the British Fourth and the French First armies in the Montdidier-Albert sector began August 8. The division was in front line training with the British Fourth army and was attached to the British Third corps for the operation, the One Hundred and Thirty-first regiment of infantry being assigned to the British Fifty-eighth division. This regiment joined in the attack August 9 against the Morlaucourt-Chippilly spur north of the Somme. It reached its objectives in splendid fashion and occupied a line on the western edge of Gressaire wood, extending southward along the river.

August 10, it continued to progress against decided opposition, gaining the eastern edge of the forests of Fosse and Marcon. During the following three days, the command having been shifted, the One Hundred and Thirty-first infantry under the Australian Fourth division attained a line just west of Bray-sur-Somme. The three other regiments were in reserve during the operations. The One Hundred and Thirty-first infantry was relieved August 20, having advanced over three miles and suffered heavy casualties.

I motored to the British front Sunday to be present at Thirty-third division headquarters, near Moliens-aux-Bois, on the occasion of the visit of King George, who was then visiting his armies. General Bliss had preceded me and we both spent the night there. That evening General Bliss, relating the details of the participation of his troops with the British, said their services had been urgently requested and that they had acquitted themselves well.

King George Bestows Decorations.

The king arrived August 12, to present decorations to selected men of the Thirty-third division, who had participated in the recent attacks of the British army. Soon after his arrival the king invited General Bliss and me to his room, where he presented me with the Grand Cross of the Order of the Bath and bestowed the Order of St. Michael and St. George on General Bliss. The presentations were informal, as the king simply handed the decorations to us in turn, at the same time expressing his appreciation of American assistance.

We then accompanied the king to the place where the men were assembled for the ceremony. He was gracious in his compliments as he pinned the decorations on our men, and the recipients were extremely proud.

CHAPTER LV

The final decision that the First American army would undertake the reduction of the St. Mihiel salient as its first operation was transmitted to army headquarters August 10 and the army staff immediately began the development of plans for the concentration of the necessary troops for its execution.

It was certain the psychological effect on the enemy of our success in this first operation by the American army as well as on the allies, our own troops and our people at home would be of great importance. The attack must, therefore, not only succeed, but a serious hostile reaction must be made impossible.

The headquarters of the First army were removed to Neufchateau between August 11 and 16. The special army troops assembled north of Chateau Thierry were moved eastward during the same period.

Composition of First Army.

The following corps and divisions were placed at the disposal of the First army for the St. Mihiel operation and their condition may be summarized as follows:

The First and Second divisions were excellent as to training, equipment and morale. They had attacked July 18 in the Soissons drive.

The Third, Fourth, Twenty-sixth and Forty-second divisions were of fine morale and considerable experience, as they had fought in the defense about Chateau Thierry and in the advance toward the Vesle river.

The Eighty-ninth and Ninetieth divisions were going through their sector training on the front between Toul and the Moselle river and the Fifth and Thirty-fifth divisions were taking their sector training in the Vosges.

The Thirty-third, Seventy-eighth, Eightieth and Eighty-second divisions had been training behind the British front, one brigade of the Thirty-third having had front-line service with the British, and the Ninety-first division had never been in the front line and had received less than four weeks' training in France.

Misleading the Germans.

The considerable circulation of troops in the St. Mihiel area naturally attracted the attention of the people and of the officers and soldiers. Although cautioned against such discussion, the probability of an American attack on the salient was discussed here and there.

To divert the enemy's attention from our real objective it was necessary first to create some uncertainty in the minds of our own troops. The rumor was therefore started around

headquarters that our first offensive might be in the direction of Mulhouse, in the Rhine valley, beyond the Vosges mountains, northeast of Belfort.

It was also decided to make a diversion in that direction, and as a preliminary step an officer was sent to lease buildings in Belfort. At the same time confidential instructions were sent Major-General Bundy, commanding the Sixth corps, to proceed to Belfort with a limited staff and prepare detailed plans for an offensive with the object of seizing Mulhouse and the heights to the southeast and eventually establishing our line along the Rhine.

In the letter of instructions seven divisions were mentioned as having been designated for the attack, and three officers from each of these units were detailed to report to General Bundy to assist in the reconnaissance. He was directed to expedite the work of preparation, as the movement would probably begin September 8, under my personal command.

An attack by the French Tenth army, begun August 29, 1918, was undertaken to force the retirement of the enemy from the Vesle and Aisne rivers. On its relief from the Vesle August 7 the Thirty-second division (Haan) was assigned to the Tenth army and entered the line August 28, immediately undertaking a series of

fortresses around Toul. We had three divisions in line on the south face of the sector, but the mass of our battle troops would not take over the trenches until the night before the attack.

Foch Springs Surprise.

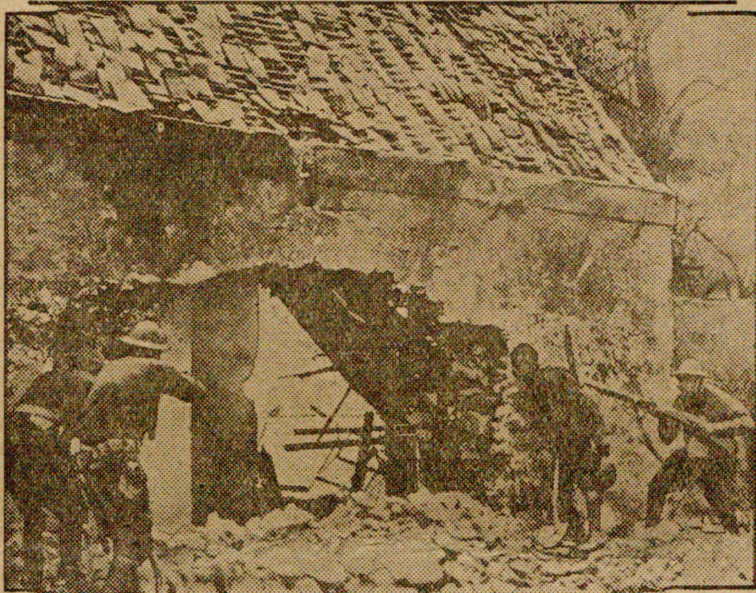

August 30, the day I assumed command of the sector, Marshal Foch, accompanied by General Weygand, his chief of staff, came to my residence at Ligny-en-Barrois and after the usual cordial exchange of greetings presented an entirely new plan for the use of the American army.

The marshal began by saying that the German armies were in more or less disorder from recent attacks by the allies and that we must not allow them to reorganize, and that the British would continue their attack in the direction of Cambrai and St. Quentin and the French toward Mesnil.

Then, much to my surprise, he proposed that the objectives in the St. Mihiel operation be restricted and the attack made on the southern face only, and that upon its completion two other operations be undertaken by combined American and French, a number of our divisions going under French command.

Pershing Insists on U. S. Army.

I repeated what I had often said, that the American government and people expected the army to act as a unit and not be dispersed in this way.

Fighting Their Way Into a Farmstead.

local operations in which gains were made in the face of very heavy fire. Ravines and numerous caves in the region provided ideal cover for the defending troops.

The general attack of the army the following day met but slight success, the enemy resisting desperately along his entire front, but on the 30th, by a flank attack from the south, the Thirty-second division captured Juvigny, pushing a small salient into the German lines.

Hard fighting continued August 31, but by the end of the day the Thirty-second had reached the important Soissons-St. Quentin road, where it was relieved September 2. The Thirty-second division had advanced nearly three miles and its success contributed greatly to the forced withdrawal of the German line to the Aisne river.

Pershing Takes Over Sector.

As prearranged between General Petain and myself, the sector from Port-sur-Selle (east of the Moselle river) to Watronville (north of Les Esparges), forty-two miles in extent, then occupied by the entire French Eighth army and a part of the French Second army, was transferred to my command on August 30.

The front included the St. Mihiel salient, which was between these points, and embraced the permanent

I pointed out that each time we were about to complete the organization of our army, some proposition like this was presented to prevent it.

The discussion was somewhat heated and much of it was carried on so rapidly that it could not be translated. He continued to reiterate his demands for the adoption of his plan, but I had learned that it was necessary to be very firm in dealing with him, and I finally said, in effect:

"Marshal Foch, you have no authority as allied commander in chief to call upon me to yield up my command of the American army to have it scattered among the allied forces, where it will not be an American army at all."

He was apparently surprised at my resentment of his attempt to confine American effort to subordinate roles, and said, "I must insist upon the arrangement," to which I replied, as we both rose:

"You may insist all you please, but I decline absolutely to agree to your plan. While our army will fight wherever you may decide, it will not fight except as an independent American army."

He said he was disposed to do what he could toward forming an American army. He then picked up his maps and papers and left, very pale and ap-

parently exhausted, saying at the door as he handed me the memorandum of his proposal that he thought that after careful study I should arrive at the same conclusion he had.

Agreement Is Reached.

My chief of staff, General McAndrew, and chief of operations, Fox Conner, were sent to confer with Weygand September 1 and returned to Ligny-en-Barrois with word that Marshal Foch desired to see General Petain and me the following day. Motoring to Petain's headquarters with Boyd and De Marchenches, we found McAndrew and Conner had preceded us and after lunch we went to Bombon.

Opening the conference Foch referred to the note he had handed me August 30 and to my reply and asked my observations. Stating my attitude on the desirability of carrying out vigorous offensives to the fullest possible extent, I explained that if it should be deemed necessary to abandon the St. Mihiel project in order to begin the larger offensive, which was understood to be west of the Meuse, I would abide by his decision.

In the ensuing discussion, while there was considerable sparring, it was agreed the American army should operate as a unit under its own commander on the Meuse-Argonne front.

Marshal Foch concluded that the date for the operation should be postponed so we could first carry out the limited attack at St. Mihiel. We finally reached the definite understanding that after St. Mihiel our First army should prepare to begin this second offensive not later than September 25.

CHAPTER LVI.

"The First army attacked yesterday and the reduction of the St. Mihiel salient is complete," reads my diary of September 13, written at Ligny-en-Barrois.

"Our troops behaved splendidly. The secretary of war visited two corps headquarters; returned to Ligny much delighted at our success."

"Petain and I went to the town of St. Mihiel today and were warmly greeted by the people. This is my birthday and a very happy one."

The attack of the infantry on the southern face of the St. Mihiel salient started at five in the morning and before that I went with several staff officers to old Fort Gronville, situated on a commanding height overlooking the battlefield from the south. The secondary attack on the west was launched at 8 a. m. as an element of surprise for artillery preparation there.

Weather Gives Advantage.

A drizzling rain and mist prevented us from getting a clear view, but the progress of our troops could be followed by the barrage which preceded them. Notwithstanding a heavy rainfall the night of September 11-12, the weather gave us an advantage, as the mist partly screened our advance from the enemy.

Overcome Entanglements.

Thanks to the thorough preparation beforehand, the wire entanglements were more easily overcome than we had expected.

Trained teams of pioneers and engineers, with bangalore torpedoes, wire cutters and axes, assisted in opening gaps in the masses of barbed wire covering the German positions. The leading troops themselves carried along rolls of chicken wire, which was thrown across entanglements here and there, forming a kind of bridge for the infantry.

In all their offensives the allies had spent days destroying entanglements with artillery fire or had used a large number of heavy tanks, but we had only a few light tanks, ineffective for such work. The fact that we had smothered the enemy artillery was an advantage, as it enabled the leading waves deliberately to do their work without serious loss.

The quick passage through these entanglements by our troops excited no little surprise among the French, who sent a large number of officers and noncommissioned officers to St. Mihiel several days later to see how it had been done. One of these officers, after his reconnaissance, remarked in all seriousness that the Americans had the advantage over Frenchmen because of their long legs and large feet.

Lesson for September 20

THE COUNCIL AT JERUSALEM

LESSON TEXT—Acts 15:1-35.

GOLDEN TEXT—For, brethren, ye have been called unto liberty; only use not liberty for an occasion to the flesh, but by love serve one another.

PRIMARY TOPIC—Christians Working Together.

JUNIOR TOPIC—The First Missionary Convention.

INTERMEDIATE AND SENIOR TOPIC—Christian Freedom.

YOUNG PEOPLE AND ADULT TOPIC—Christianity at the Crossroads.

I. The Controversy in the Church at Antioch (vv. 1-5).

This difficulty was a most serious one, for it threatened the disruption of the church into Jewish and Gentile divisions. It was not a question of the admission of the Gentiles into the Church; that had been settled some years before when Peter received Cornelius and his household. The question now was, On what ground could they be received? Should Gentile converts be required to keep the Mosaic Law as a condition of salvation? This issue was brought on by the coming of certain men from Jerusalem who declared, "Except ye be circumcised after the manner of Moses, ye cannot be saved" (v. 1). The question was so difficult that Paul and Barnabas were unable to put them to silence. These Jewish legalists had the letter of the Scripture on their side. They could point to the command enjoining this rite upon the male children of the covenant people (Gen. 17:10-14). Paul could not point to any scripture where this obligation had been abrogated. If Paul should plead that Abraham was justified before he was circumcised, his antagonist could answer, "Yes, but after justification the rite was divinely imposed." The brethren at Antioch decided to refer the matter to the mother church at Jerusalem. Accordingly, Paul and Barnabas and others were sent as a deputation to Jerusalem.

II. The Deliberations of the Council (vv. 6-21).

1. Peter's speech (vv. 6-11). He argued that God had borne witness to the acceptance of the Gentiles by giving the Holy Spirit to them as unto the Jews (Acts 10:34-47). Since, therefore, God had not put a difference, it would be folly for them to do so.

2. Paul and Barnabas rehearsed their experience (v. 12). They told how that God had set his seal of approval on their preaching of salvation by grace through faith apart from the works of the law by the working of signs and wonders through them.

3. The argument of James (vv. 14-21). He took the fact declared by Peter and showed how it harmonized with the prophecy of Amos (Amos 9:11-15). He showed that the reception of the Gentiles was not in conflict but in strict harmony with God's plan. As set forth in the speech of James, God's plan is as follows:

a. To take out from among the Gentiles a people for his name (v. 14). This is what is now going on—the preaching of the gospel to the ends of the earth, and the calling out of the Church.

b. After the Church is completed and removed, the Israelitish nation will be converted and restored to their land and privileges by the Lord himself at his return (vv. 16, 17).

c. Following this will be the conversion of the world through the agency of converted Israel (v. 17 cf. Rom. 11:15-17). He showed that there is no conflict when the Scriptures are rightly divided.

III. The Decision of the Council (vv. 22-29).

The mother church came to a unanimous agreement and accepted the resolution offered by James. They not only sent a letter stating the decision of the conference, but took the wise precaution to send influential men along with Paul and Barnabas to bear the same testimony by word of mouth. This letter denied the authority of the Judaizing teachers (v. 24) and declared the method by which this decision had been reached (vv. 25-27). They put the Holy Spirit, first. They were positively instructed to abstain from meats offered to idols, from blood, and from things strangled, and from fornication.

IV. The Decision Delivered to the Church (vv. 30-35).

Upon their return to Antioch, the church was called together to hear the report. Its reading brought great rejoicing. Judas and Silas, who had been sent as confirmatory witnesses, being prophets, now exhorted the brethren with many words, confirming the decision of the Jerusalem church.

Abiding in Christ

Abiding in Christ does not mean that you must always be thinking about Christ. You are in a house, abiding in its enclosure or beneath its shelter, though you are not always thinking about the house itself. But you always know when you leave it.—F. B. Meyer.

God Is in All

Be he nowhere else, God is in all that liberates and lifts, in all that humbles, sweetens, and consoles.—Lowell.

Frown on Lion Hunters Killing From Airplanes

Hunting lions from airplanes is distinctly out, in all parts of Africa where the British writ rules. The open veldt of the great African game country offers great possibilities for cross-country coursing in automobiles, and easy landing for airplanes. Hence, sportsmen have been rather overshooting lions. This is regarded as bad for several reasons. It threatens the sport with extinction, but sportsmen are joined in their anxiety by zoologists, who do not wish to see another splendid wild animal added to the list of extinct species. Conservationists and animal ecologists also see in the lion a useful regulator for the numbers of antelope and other grazing animals, which without some natural check might increase too rapidly and overgraze the range. Only in thickly populated districts, where lions become troublesome stock killers and potential menaces to human life, is exterminative hunting tolerated.

Make Pets of Mice

London has a club of mice breeders which holds monthly meetings and the members spend their time in discussing the "points" of the mice which are brought for exhibition by the members. Sometimes a hundred mice are shown at one of these meetings, and enthusiasts become lyrical over their beauty. The champion mouse has a broad skull, tulip-shaped ears, beady eyes and with a long tail set well in at the base. As to color it can be chocolate, lilac, blue, black or silver. The "Tans" are the newest breed, and they can be obtained in two colors. The under color is always yellow, but the top color varies.

Telling the Neighbors

The Browns had had their house painted and reshingled. Mrs. Brown, on the receipt of the bill, remarked to a neighbor: "Every time I wish we were going away for the summer I walk around my house and 'this is my vacation.'"

Sometime later six-year-old Joan was overheard excitedly telling her younger brother:

"Do you know where we're going this summer? We're gonna walk around our house in a circle and look at it. That's our vacation. Mother said so."—Chicago Tribune.

Cupidity Finds a Way

Lawyer—But, madam, you cannot marry again. If you do, your husband has clearly specified that his fortune will go to his cousin.

Fair Client—I know that. It's his cousin I'm marrying. —Kennebec Journal.

Suspicion

Mrs. A.—I met your husband today and he was telling me how much he was in love with his work.

Mrs. B.—Was he indeed? I shall have to take a look in at the office. —Boston Transcript.

More Than a Hint

"I think the radio is lots of company," declared the auditor's wife. "Yes," nodded the tired hostess, "and you don't find it standing in the doorway an hour before saying good-night, either."

Early to Bed

The age of discretion is when you get over the idea that sophistication consists in losing sleep.

High words are often used to express low language.

Second thoughts are ever wisest.

IT MUST BE GOOD TO WIN THREE MILLION USERS

Plough's Favorite Bouquet Face Powder is not only "good"—it's as fine as money can buy. You'll enthuse over the way it harmonizes with your complexion, you'll adore the way it clings for hours and you'll thrill over your discovery of such fine quality at such a smartly economical price. Always ask for Plough's Favorite Bouquet in the square-shaped red box, the largest selling face powder in the world for 25c.

Plough's FAVORITE BOUQUET FACE POWDER

If you prefer a heavier texture powder, choose Plough's "Exquisite" Face Powder, in the round red box, 50c. For oily skin, Plough's "Incense of Flowers" Face Powder, in the red oval box, 75c.

Popcorn Machines, electric, gasoline, new and used, \$15 up. Northside Sales Co., 1306 Fifth, W. Des Moines, Iowa.

MOKENA

ST. JOHN'S EVAN. CHURCH

Theodore E. Lapp, Minister
Church School 9:00 a. m.
Divine worship 10:00 A. M.
Saturday afternoon the S. S. will have their annual picnic in the City Park. Games, refreshments, and pot luck supper are features of the picnic.
Thursday evening, Sept. 24th at 8 p. m. monthly meeting of Church Council.

Sunday morning Rev. Lapp spoke on the "New Capitalism". It was pointed out that communism and Capitalism, to-day confront one another as rival economic systems. Neither one in its present form can save western civilization. The only solution is a new and Christian capitalism that is at least as much concerned with social welfare as with profit making.

Come and worship with us. We do not claim infallible revelation, but we claim to seek truth fearlessly and to state it without favor or without fear of offending those who have scrapped intelligence in the search for God's will for our day and generation.

IMMANUEL LUTHERAN CHURCH

Mokena, Illinois.
Rev. Paul E. Schuauers, Pastor
Sunday morning services will be conducted in the Immanuel Lutheran church at 10:00 o'clock in the English language. The Rev. Paul Roesener will be in charge. Sunday school will meet at 9:00 o'clock. Come thou with us and we will do thee good.

Sunday September 27th Immanuel Lutheran church will celebrate its annual Mission Festival with two services. A German service at 10:00 o'clock in the morning, the Rev. A. Lach of Orland Park, Ill. will deliver the sermon. An English service at 2:00 o'clock in the afternoon, the Rev. L. J. Schwartzkopf of Homewood, Ill., will be the speaker. All are welcome to hear these services.

Sin. Lutherans teach that every thought, word, and deed contrary to God's Law is sin; that every human being is a sinner by birth; that all evil in the world is the consequence of man's sinning; and that sin is wholly damnable. References.—1 John 3, 4; John 3, 6; Gen. 8, 21; Rom 5, 12; Ps. 5, 4.

MOKENA M. E. CHURCH

L. E. Cooke, Pastor
"I exhort that Prayer be made for all men". 1 Timothy 2:1.
Sunday School 10:00 a. m.
Morning Worship 11:00 a. m.
Special Evening Vespers 7:30 p. m.
A Prayer: "Help us, Oh Lord, in everything that we try to do in Thy Holy Name".
Sunday, Sept. 20th at the morning service we are going to consider these words spoken in connection with John's vision, "And I saw an angel standing in the sun."
The evening service is always a surprise, (sometimes even to the pastor).

A Thought: "A man is worth as much as the thing is worth to which he gives himself."

Mr. and Mrs. George Koeller, Sr., entertained at dinner at their home Sunday, Mr. and Mrs. Joe Gee and children of Chicago, in honor of Mr. Gee's birthday and a farewell to Miss Elmira Koeller who leaves this week to enter the Illinois University at Champaign.

Mr. and Mrs. Krusch of Chicago were week end guests in the J. V. Hall home.

Mr. and Mrs. Eugene Panke and children Harriett and Robert of Chicago Heights and Martin Homan of Joliet, were dinner guests at the Wm Semmler home Sunday.

The Ladies Aid of the M. E. church were entertained at the home of Mrs. Rose Moriarty Tuesday. A cafeteria lunch was served at one o'clock.

Mrs. W. R. Lynk and daughter, Mrs. Oscar Klose, Jr., have returned from a vacation spent at their summer cottage in Wisconsin. Mr. Lynk is going to remain there a few weeks more and has been joined by Herman Schweser who left for Wisconsin last Friday.

Christ Paulson left for Kansas City last week. He is employed there

Closing Auto Race of A. A. A. To Be Held Sun. Sept. 27

In the program of ten A. A. A. Auto Races to be run at the Roby-Chicago Speedway Sunday afternoon Sept. 27th is a race for the four fastest cars in qualifying trials; this will bring together old rivals in the speed game and give the fans a chance to see the greatest battle of speed ever to be run in the Chicago district.

While all the entries are not in it is expected that the four who will drive the match race will be picked from Wild Bill Cummings who won fifth at Indianapolis and won the last century grind at the local track, Wilbur Shaw who is considered dynamite over the Roby track, Shorty Canton recent winner of the Altona board speedway event, Gus Schrader the Iowa cyclone and possibly Bryan Saulspahn in his K-4; others may enter the picture before the close of the entries; this being the last event of the season will bring the largest entry list of the year it is expected.

Beside the match race, the handicap event which will start the slowest car from the tape first the next fastest second etc., each handicap according to their qualifying time, is creating much interest among the fans as is the ten mile wheel change race.

Events have been so arranged that should there be thirty entries all will get a chance in one race or another, and by having a fast and a slow car events it is expected that the contest will be the most thrilling of the year

WORTH

While manager Georgt M. Peterson was on a fishing trip in Wisconsin, his Worth ball club traveled over to Lemont and enraged Lemont's Tigers to such an extent that they clawed them to the tune of an 11 to 1 scratching.

Teason gave Schulda a tight battle for six innings, but then was thrown down by his support; the Worth boys made several costly errors.

Ende, Lemont short stop, took away the laurels for the game. He fielded brilliantly and collected three hits at bat, one of which was a home run. A double by Ray Miller in the first inning was responsible for Worth's first two runs, while in the ninth inning Freddie Berhends hit the ball over the left field fence for a home run.

Worth Community Church News

At the Fourth Quarterly Conference held at the Church Sunday, September 6, the following officers and committees were elected for the year 1931-32.

Trustees—Lewis MacCauley, Carl Bishop, A. J. Crandall, Henry Elliott, Robert Wilson, Elmer Lysen, Henry Stewart.

Stewards—Mrs. Leah Bishop, Mrs. A. J. Crandall, Mrs. Bert Foyle, Mrs. Ida Lucas, Mrs. O. H. Lysen, Mrs. I. J. MacCauley, Mrs. B. F. Rofle, Mrs. Henry Stewart, Mrs. E. E. Stromberg, Mrs. Harry Woods.

Finance Committee—A. J. Crandall, Carl Bishop, Lewis MacCauley, Robert Wilson, Elmer Lysen, Mrs. Henry Stewart.

Building and Grounds—A. J. Crandall, Lewis MacCauley, William Teason, Jr., Henry Elliott.

Religious Instruction—Mrs. Wm. Teason, Jr., Elmer Lysen, Mary Bishop, Mrs. A. J. Crandall, Mrs. B. F. Rofle.

Communion Steward—Mrs. Leah Bishop.

District Steward—Elmer Lysen.

Church Treasurer—Lewis MacCauley.

The members and friends of the Worth Community church have been invited to attend the communion service at the Palos Park Presbyterian Church, Sunday, September 20 at eight o'clock. This service will be a part of the dedication services of the enlarged church building. The pastor, the Rev. Mr. Thomas, will be assisted in the service by the Rev. Paul T. Sanders of Orland Park, the Rev. Frank Coats of Lemont and the Rev. Guy Chester Jones of Worth.

Work on the paving of the Southwest Highway in the vicinity of Orland and Worth is going right along. The approaches on both sides of the grade separation bridge north of Orland were paved last week. These approaches built thru a slough were built two years but kept settling so much that paving had to be held up until now.

A gap in the pavement in the Palos region is also being paved and work has been begun on a bridge over the canal near Worth.

"The Scientific American" on the Bell System

"Over all the battlefield into which the world has been turned, with commerce and industry fighting for their lives against economic forces but little understood, there stands the spectacle of one mighty corporation that expanded tremendously during 1930. In point of gross income during that year, the American Telephone and Telegraph Company stands above all other corporations, private, state, or corporate, in all the world. One reason for this great income is that, in the United States, rapid communication in business and in the home has become almost as important as speech itself. Another reason is that the company spent \$15,000,000 for research—progress insurance—and nearly \$600,000,000 for maintenance, new equipment, and so on during the year. . . ."

—Scientific American.

EXTRA TELEPHONE SERVICE FOR THIS VACATION LAND

To the land of Hiawatha, where the kin of old Nokomis, son of fair Wenonah, wooed and won the fairest of the Dakotahs, Minnehaha—the land of 10,000 lakes—come during the summer season some 1,450,000 people, answering the call of this northland paradise. This is about twice the population of the cities of Minneapolis and St. Paul combined.

For the accommodation of this large number of vacationists and lovers of outdoor life, the Northwestern Bell Telephone Company has increased its facilities so that tourists will find ready and adequate means of communication. Most of the larger resorts now have private branch exchange systems and direct long distance connections.

As the number of visitors keeps growing from year to year, it is necessary to anticipate this increase and provide facilities to meet the growth. Last year the toll traffic out of Brainerd, which is in the heart of the Land of the Sky Blue Water, showed an increase during the summer months of about 10,000 long distance calls over that of the preceding year, and other resorts showed corresponding growth.

SPECIAL GOLD TELEPHONE INSTALLED FOR GEORGE V.

The 2,000,000th telephone installed in Great Britain was recently placed in Buckingham Palace for the personal use of King George. The instrument is finished in old gold. The telephone number of Buckingham Palace is Victoria 4832, and appears in the London telephone directory, but this doesn't mean that it is an easy matter to get the King personally on the telephone, for his telephone door is as carefully guarded as is the gate to the palace itself.

The King, however, makes frequent use of the telephone, and all the royal residences, including Windsor Castle, Sandringham House and Holyrood Palace, have telephone connections, for affairs of state sometimes make it necessary for the Sovereign to be quickly accessible to his Ministers.

GIRL IS RESCUED WHEN SHE DIALS THE OPERATOR

Alertness on the part of a telephone operator, Miss Jessie Metzger, at Lancaster, Pa., brought assistance to Grace McCorkle, fifteen years old, after she had been bound and gagged by a youth who had gained entrance to the house. After the man left, the girl, strangling from the tight knots around her throat, rolled across the floor to the telephone, which she overturned. She dialed for the operator, and through the gag screamed for help. She then became unconscious, but the operator meanwhile had the police notified and she was soon rescued from her danger.

MAN LOCATED THROUGH 68 CALLS TO 14 CITIES

Operators Follow Clues Through Three States to Complete Important Call

In these days, when most out-of-town telephone calls, even those over vast distances, are put through while the subscriber holds the line, a call that required three days to complete seems incredible. However, such is the persistence of long distance operators that when an important call has to be put through and complete information about the location of the person desired is lacking they "follow through" as long as there is any hope of completing the call.

Billy, the 14-year-old son of Mrs. Herbert Brody of Knoxville, Tenn., was taken critically ill, and it became necessary to notify the child's grandfather, Bart Brody, a commercial traveler, who was known to be somewhere in Tennessee, Virginia or Kentucky—and that was about all that was known of his whereabouts. However, the task of locating him did not faze the operators in the Knoxville office, and for three days three operators worked on that call. They made sixty-eight different connections with fourteen different cities in the three states, accumulated twelve solid pages of report records and reported back to Mrs. Brody, the caller, fifty-two times.

Late on the third day Bart Brody was found in Jenkins, Ky., and within twelve hours he was back in Knoxville at the bedside of his grandson. Upon the return of the grandfather the boy began to show improvement and ultimately recovered.

OPERATOR RETIRES AFTER LONG SERVICE ON COAST

Miss Birdie MacDonald has recently retired after completing thirty-six years of service as a Bell System telephone operator on the Pacific Coast. She started her telephone career in 1894 at San Rafael, across the bay from San Francisco. In 1896 she went to San Francisco, and in 1897 to Sacramento, where she spent twenty-five years. Since 1922 she has been serving as chief operator at Alhambra.

One of her most exciting experiences was the great San Francisco disaster of 1906. Although ninety miles from the scene, the Sacramento office was indirectly affected. The morning of the disaster, the wires to San Francisco went down, but later one circuit was reconnected, and it was by means of this circuit that the news of conditions in San Francisco came. As it was the only means of communication with the stricken city, people lined up outside of the telephone office for a block, and hundreds of calls had to be kept waiting for the one circuit.

MARK CENTENARY OF GERMAN TELEPHONE PIONEER

The centenary of the birth of Heinrich von Stephan is being celebrated this year. Dr. von Stephan was one of the most famous of German postal administrators, and for him it is claimed that he was the creator of the World Postal Union which arose after the Paris Congress of 1878. He served as Director-General of Posts of the North German Confederation and of the new German Empire.

He is also known as one of the pioneers of the telephone in Europe, having realized its potentialities almost from its invention. He planned a telephone service for Berlin in 1877, but the proposition was turned down by the Police-President, according to the Telegraphen-Praxis of Lübeck. However, the Berlin exchange was opened in 1881, and the number of subscribers rapidly increased.

HALF OF "INTERWOVEN PAIR" WAS ONCE TELEPHONE MAN

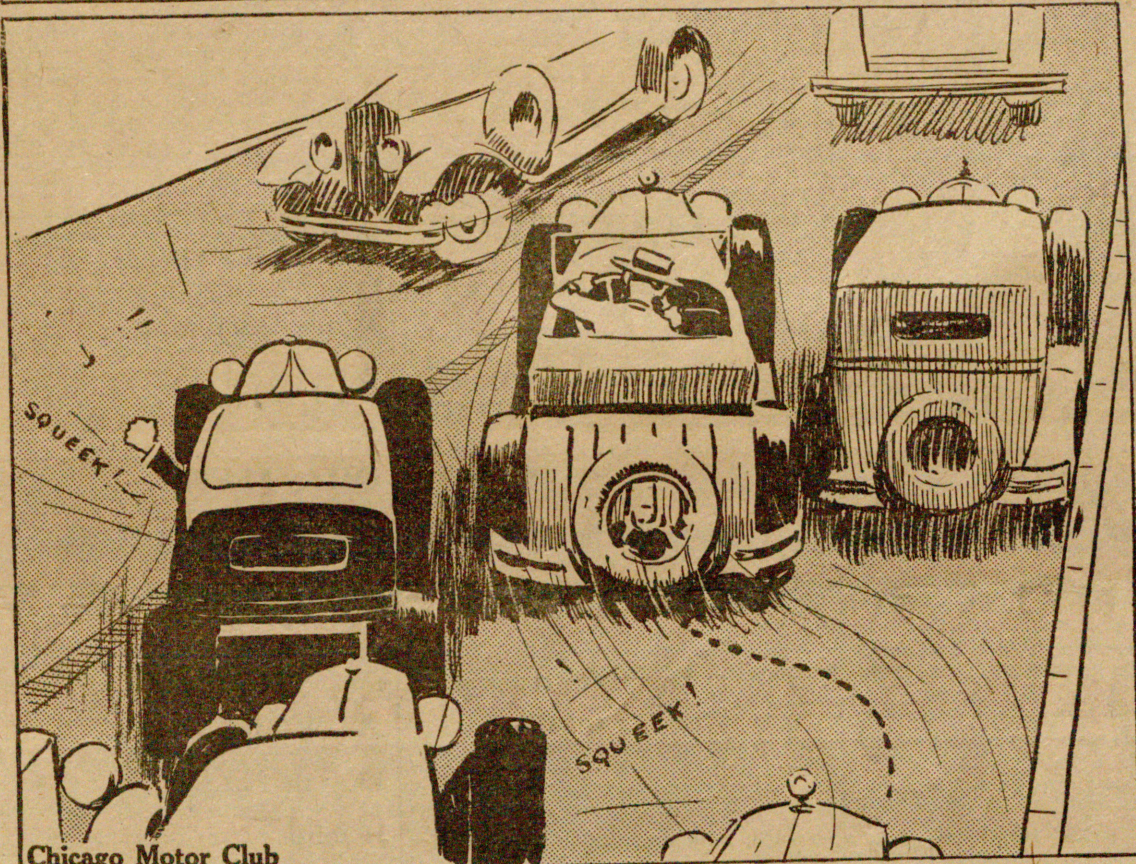

Billy Jones, of the radio team of "Billy Jones and Ernie Hare," was once a telephone lineman.

WHAT'S WRONG AND WHERE?

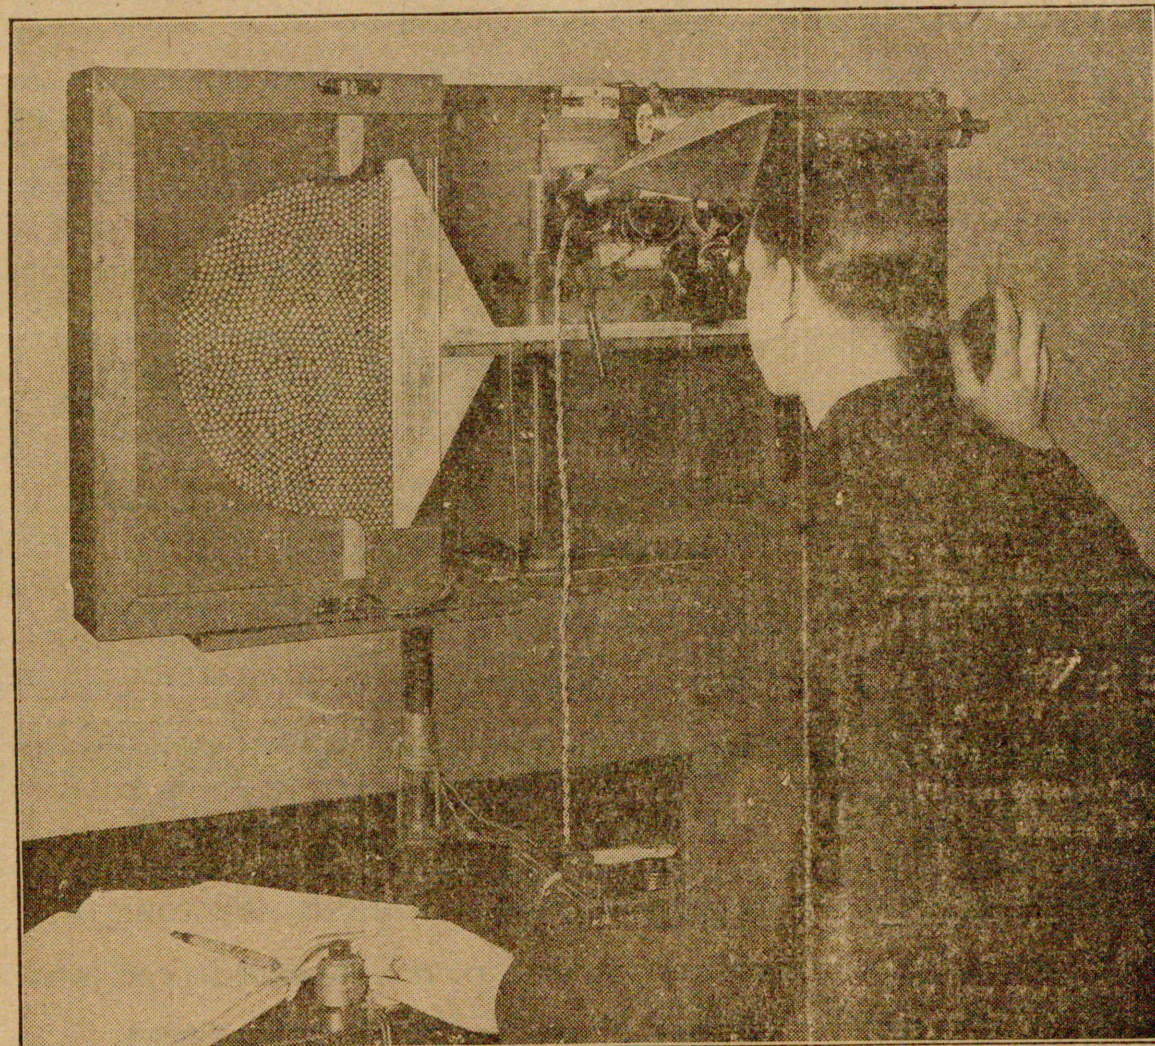

How good are you at finding mistakes? The artist has intentionally made several obvious ones in drawing the above picture. Some of them are easily discovered, others may be hard. See how long it will take YOU to find them.

DRIVERS WE HATE TO MEET

The geek who dashes from a parking space smack into fast moving traffic.

Model Shows What Happens Inside Your Telephone

The round objects in the model above are graphite-coated rubber balls, which represent the carbon granules in the ordinary telephone transmitter. When the plunger is pushed in, the balls are compressed just as the transmitter diaphragm, vibrating to voice waves, is thought to compress the carbon granules.

Just behind the diaphragm of your telephone, which vibrates to the sound waves of your voice as you speak into the transmitter, is a little chamber holding some 10,000 tiny granules of crushed and roasted coal. As the diaphragm moves back and forth, the granules are agitated, and the electrical current which flows through them becomes a faithful copy of the original sound waves of your voice. In this large model, rubber balls coated with graphite represent the tiny carbon granules, and the compression and expansion of the balls, increasing and decreasing the area of their contact with one another as the plunger is moved in and out, is strikingly similar to what happens to the granules when the transmitter diaphragm moves in and out. Just what takes place among these granules is a problem engaging scientists of Bell Telephone Laboratories who are carrying on fundamental studies of the telephone transmitter.

ENGLISH WOMAN GETS PRACTICAL BEQUEST IN WILL

Permanent Telephone Service Is Assured Her by Terms of Friend's Endowment

It is by no means unusual for people to endow hospitals with beds, or to endow towns with parks and open space for recreation purposes, and libraries for recreation of the mind.

Now a story comes from Great Britain of a new sort of endowment. For a man who died there recently has left a bequest in trust to a woman friend, of the income from £400 (about \$2,000), so long as she keeps a telephone installed in her home.

Assures Service in Future

The testator, a friend of the family, had practically made the house his home, and had used the telephone extensively during his stay there. He used the telephone when it would have been difficult for him to go to town to transact business, and he was saved a great deal of traveling. In his will he determined to make certain that his survivors should be endowed with the blessings of the telephone service which had meant so much to him.

In describing this interesting bequest, a recent issue of the Telegraph and Telephone Journal of London says editorially:

"What appeals to us in the present case is that the testator before going to his rest was not content with a bequest to the telephone subscriber in recognition of past benefits from the use of the service. He desired that others should enjoy its friendly aid. He was obviously of the opinion that it was not only one of the amenities but one of the necessities of a well-ordered home. It had stood him in good stead and he willed that it should so serve those who came after him. . . ."

Foresees Extension of Plan

The day may yet come, continues the British publication, when rich uncles will bequeath to struggling business men the annual subscription for a fully-equipped private branch exchange "to enable their trade to wax and multiply, or a residence telephone to the hard-worked housewife to save her much journeying to and fro, or half a party line to the lonely cottage, cut off from civilization by some seven or eight long miles. It is a pleasing thought. As an excursion into phantasy we submit it to the indulgence of the courteous reader; as a practical possible suggestion we commend it to the consideration of future testators, and leave it at that."

Facts About the Telephone

Bell telephones in the Provinces of Ontario and Quebec in Canada showed a net increase of 23,340 during 1930, and placed an average of about 5,302,000 exchange calls every day, and some 75,000 long distance calls.

A new telephone circuit connecting London directly with Barcelona, Spain, has recently been brought into service. This new circuit will supplement two others already in operation between London and Madrid.

Two new direct long distance telephone circuits have been constructed between Atlanta and Birmingham, making a total of fifteen such circuits connecting the two cities. There is a greater volume of long distance calls between Atlanta and Birmingham than between any other two large cities in the South.

The checks used during 1930 in paying quarterly dividends to the stockholders of the American Telephone and Telegraph Company weighed about 5 tons and numbered more than two million. There are more than 600,000 stockholders, none of whom owns as much as one per cent of the total stock outstanding.

It Is to Laugh!

Jocko must have heard something funny over the wire. Or perhaps it's just that he is highly pleased with the service he is getting from the dial intercommunicating telephone system installed throughout the premises where he makes his home—the St. Louis zoo.

EDITORIAL SPOTLIGHT

GROWTH OF THE TELEPHONE—Danville, Ill., Commercial News.

Telephone subscribers in America are able to converse with 32,000,000 other telephone users, or 91.5 per cent of all the telephones in the world, according to the latest issue of the Telephone Review. These telephones are distributed throughout thirty-one countries which comprise most of North America, the southern part of South America, most of Europe, a section of northwest Africa, the eastern part of Australia and Java.

The latest survey indicates that there were 34,526,629 telephones in the world on January 1, 1930, the article says. Of these the United States possessed 20,068,023, or 58 per cent of the total. Europe, with 10,035,580 telephones on the same date, had 29 per cent of the world's total, or one-half as many as the United States. The remaining 13 per cent were distributed widely throughout the rest of the world.

In the United States all telephones are operated by private companies, and this country not only has more telephones than all the rest of the world but also excels in the number of telephones relative to population.

Few industries have had such a remarkable growth as has the telephone business, nor served such extensive territory or so great a proportion of the world's population. Millions of people still active in business remember the arrival of the telephone and the skepticism of the public as to its utility as a reliable means of communication. Crude in numerous respects, requiring many vicious rings to get central and much loud talk to get a message to a neighbor across the street, the pioneer telephone was not at all a hopeful invention. Now still in its youth, so far as years are concerned, it satisfactorily serves the whole world and, along with the clock on the mantel and money in the bank, has become a household and business necessity.

Baseball

Mokena Loses

To Steel Works

Sunday, September 13, the Mokena Baseball Club was defeated by the Steel Works Club of Joliet. Joliet made one run in the first inning three in the fifth, two in the ninth, one in the tenth and two more in the eleventh.

Mokena made one run in the third inning and rallied in the last of the ninth with five runs to tie the score. They made one more run in the tenth inning, but Joliet made two in the eleventh to defeat them.

Orland Defeats

Midlothian

The Orland Park baseball team defeated the crack Midlothian team for the second time Sunday with a score of 10 to 4.

ORLAND PARK

Residents along 151st street were awoken by shots about 2:30 Tuesday morning and then heard a high powered car roar down the highway immediately followed by the sound of more shots and then all was quiet. It was thought that perhaps some gangster had been taken for a ride, but nothing was to be found or even heard of Tuesday to solve the mystery of the shots and the speeding car.

HESS-SCHRADER NUPTIALS

Elmer W. Hess of Chicago and Miss Lydia W. Schrader of Lemont the latter a sister of Mrs. W. R. Schussler, Jr., were united in marriage at the Orland Park M. E. church on the evening of September 5th at 7:30 p. m., the Rev. Paul Sanders reading the service. The ceremony was witnessed by the members of the immediate families of the contracting parties. A wedding dinner was served at the Schussler home. Mr. and Mrs. Hess will reside in Lemont.

PRAIRIE CLUB WEDDING

The Prairie Club House at Palos Park was the scene of a pretty but simple wedding recently when Thomas F. Spaekman of Chicago and Miss Louise M. Kaiser of River Grove, Ill., were united in marriage at the Prairie Club House with the Rev. Paul T. Sanders of the Orland Park M. E. church officiating. The ceremony was witnessed by friends and members of the club.

Miss Katherine Wheeler, daughter of Mr. and Mrs. Thomas Wheeler left Sunday to take up a nurses training course in the St. Joseph hospital in Joliet.

A large number of Orland people attended the funeral of Mrs. Nich. Lauffer held in Mokena Monday afternoon. The deceased was born in Homer township and resided here a great many years, locating in Mokena about 12 years ago.

The new Royal Blue store conducted by J. F. Schmadeke is proving to be a popular store and is enjoying a very good patronage.

CHRIST LUTHERAN CHURCH
Missouri Synod
143rd & 100 Streets,

Orland Park, Illinois

SUNDAY SERVICES
Sunday School 10 a. m.
Morning worship 11 a. m.
Sunday Evening Club or young people's meeting 7:30 p. m.
Ladies Guild meeting the last Thursday afternoon in the month.

The village board in regular semi-monthly session Monday night. In the absence of Mayor Ralph Jennings, Alderman Thomas Wheeler served as mayor pro tem.

The board approved the issuance of individual accident insurance policies to each of the 25 members of the Orland Fire Department in the Aetna Insurance Co.

The fire truck has also been insured against fire and theft, public liability and property damage.

A pipe running from the water main into the Helenhouse barber-shop burst Monday night. The pipe had to be dug up and the repairs were finished Tuesday night.

The Orland Fire Department was called on a fire at Palos Park Saturday night when a Mr. Foster resided

at 121st Street and S. Hobart ave., in Palos called for help saying his Lincoln car was afire. Chief John Helenhouse and another member of the fire department drove the Orland fire truck to the scene of the fire in about 3 minutes and saved the car.

A number of Orland people of Orland township attended the funeral of motorcycle policeman Merle Bettenhausen of Tinley Park held Wednesday afternoon at the Tinley German M. E. church.

The auction sale held Tuesday afternoon on the Oscar Bump farm in Homer township was quite well attended in spite of the rainy day.

The Orland Park P. T. A. held their first meeting of this season at the Orland Park school Thursday night.

Mrs. Henry Storz who has been seriously ill for sometime, remains about the same.

WORTH

Miss Margaret Bishop has entered the Chicago M. E. Training school. Miss Elva Wilson has enrolled as a student in the Rockford college. Miss Ethel Stuart has gone to Ames, Iowa where she is taking a post graduate course in pre-school education in the Iowa State College. She left Monday and was accompanied by her mother on the trip.

Mrs. Almira Perry who has been quite ill, is improving. Wm. Teason, Jr., has completed his new home and will move in very shortly.

The Worth-Orland Girls Sorority Club attended a card party on the north side of Chicago, Tuesday evening.

AMERICA'S ONLY REFINER OF
GERM PROCESSED OIL OFFERS....

\$10,000 IN CASH PRIZES

FOR THE BEST ANSWERS EXPLAINING THE

MYSTERY OF THE "HIDDEN QUART"

AND TELLING HOW THIS QUART BENEFITS MOTORISTS

Fact No. 1—Thousands of motorists and service station men have observed that after a car has been given its FIRST fill of Conoco Germ Processed Motor Oil and is driven 200 to 350 miles, a look at the crankcase gauge shows that about one quart of oil is APPARENTLY missing... but

Fact No. 2—These same people have noticed that on the SECOND and later fillings with Conoco Germ Processed Motor Oil, scarcely a drop of oil will disappear during the first 350 miles and practically none at 500 and up to 1,000 miles!

The above facts have been checked by actual tests with cars that use six quarts of oil for the crankcase, cars in good mechanical condition and driven at ordinary rates of speed. These facts will also prove true for your car, in proportion to the amount of oil your crankcase usually holds, your car's mechanical condition and the speeds at which you drive.

What becomes of the "hidden quart"? The answer is easy if you study the Facts given above and keep in mind the things that only Conoco Germ Processed Motor Oil can do. The explanation of the whereabouts of the "hidden quart" is simple—no technical knowledge of motors or oil is necessary.

Remember—The "hidden quart" of Germ Processed Oil does not escape through leakage... does not burn up, wear out nor evaporate. It is "present but unaccounted for." Fact No. 2, given above, proves all this.

After you've found where the "hidden quart" goes, you can easily see the special benefits it gives the motorist—advantages that no other oil can give.

See Rules of Contest for complete details.

The Question—“What becomes of the 'hidden' quart and how does this quart benefit the motorist?”

COMPLETE RULES OF CONTEST

- Answers may be any length not exceeding 200 words; length of answers will not determine winners. Write answers on Official Contest Entry Blanks preferably, or on plain white paper. Conoco Stations and Dealers will give you an Official Contest Entry Blank free. Elaborate presentations of answers will not count in your favor.
- Write your answer in plain, simple language. Technical terms or special scientific knowledge will not influence the judges.
- Contest closes midnight, Sept. 28, 1931, and no entries bearing postmarks after midnight, Sept. 28, 1931, will be accepted.
- Contest open to everybody except employees and executives of the Continental Oil Company, Conoco Stations, Conoco Dealers and the Company's advertising agency, and their families.
- In case of tie, both contestants will receive full amount of prize tied for.
- You do not have to use or purchase Conoco Germ Processed Motor Oil or other Conoco products to compete for prizes.
- All entries submitted, whether or not they win prizes, become the property of the Continental Oil Company and may be used in advertising without payment, and none can be returned to senders.

World's Zero Mile Post in England

Center for Figuring Longitude Since 1884.

Washington.—Greenwich observatory, England, most widely known of the world's stations for observing the stars and marking out time, is to have a large new telescope that will put it more nearly on a par with its less famous but more efficient competitors, according to news dispatches from London.

"Greenwich is an unpretentious borough patch of London," says a bulletin from the National Geographic society, "but it has world importance in spite of itself. On practically every map and globe that is published the longitude lines conspire to bring into prominence this community on the south bank of the Thames, two and a half miles below London bridge. Nearly every country in the world, and practically every ship that sails the seas describes its position as so many degrees east or west of

Greenwich; for through the center of the dome of Greenwich observatory runs the world's generally accepted zero meridian.

"Fronting the deep waters of the lower Thames, Greenwich has always had a nautical flavor. As early as 1011 an invading Danish fleet made its base at Grenevic, as the place was then called. Through the centuries it has become more and more associated with British naval affairs. The town's outstanding building is the great Naval hospital designed by Sir Christopher Wren, and considered one of the finest creations of that famous architect. It is no longer used as a hospital, but serves now as the Royal Naval college where Britain's naval officers are trained.

"Greenwich was once even more famous than Westminster and Windsor are today as the home of British royalty. On parts of the sites of the Naval college and school was situated 'Placentia,' the favorite palace of British kings during the latter part of the Fifteenth century, the Sixteenth, and half of the Seventeenth.

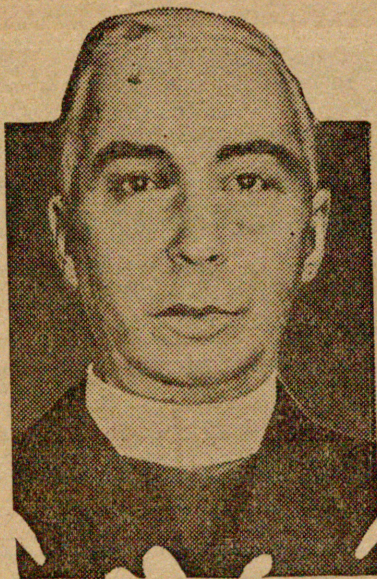

"The Greenwich observatory was established in 1675 under Charles II and placed in the old palace grounds, now Greenwich park.

"Greenwich observatory now combines some of the functions of the American Naval observatory, bureau of standards, and weather bureau. It is responsible for the correction of British time. Each day at one o'clock p. m. the time ball falls from a staff on the observatory, and electric signals are sent out by telegraph and wireless.

"Greenwich has been the world's official marking point for the zero meridian of longitude only since 1884 as a result of the Washington meridian conference. Since longitude was invented numerous zero meridians have been in use, usually for relatively small areas. In the days of Ptolemy the geographer, in the Second century A. D., longitude was reckoned from Rhodes, logically enough, for that island of the eastern Mediterranean had been the commercial and maritime center of the world for centuries. Paris and other capital cities marked the zero meridian for their own countries for a long time; but slowly the use of Greenwich spread, and has now become practically world wide.

"American longitude was expressed in terms of degrees east or west of

Trisects the Angle

Very Rev. Joseph J. Callahan, president of Duquesne university, Pittsburgh, Pa., who has announced that he has succeeded in trisecting an angle by plane geometry. This is one of the oldest of mathematical problems and never before had been solved.

Washington until after the laying of the transatlantic cables. Until electrical signals could be sent from Greenwich to the New world it was impossible to tie the longitude of European points and American points together with absolute accuracy. While Washington served as the American zero meridian many of the western state boundaries were established. It is for this reason that the boundary lines between Colorado and Utah, and between Wyoming, Idaho and Oregon will be seen on a map of the United States to fall by a small distance to coincide with the meridian lines west of Greenwich."

HOMEMAKER HINTS

The flavor of bacon can be improved if the bottom of the pan is sprinkled lightly with sugar before the bacon is placed in it.

When nails or screws need to be driven into hardwood, rub them with soap or oil. They will go in much more easily and are less likely to split the wood.

When the inner soles of your favorite bedroom slippers become shabby, tear them out and replace with new ones which can be quickly made from a discarded felt hat. Glue them in lightly.

Sliced fruits intended for salads can be given a distinctive and piquant flavor by marinating them for an hour or so in a liquid composed of eight tablespoonfuls lemon juice, eight tablespoonfuls orange juice, ten tablespoonfuls oil, two tablespoonfuls sugar and one-half teaspoonful salt. When ready to serve, drain and serve with mayonnaise or other cooked dressing. The liquid, known as a marinade, keeps well in a covered jar and makes an excellent dressing for green salads.

A final touch that enhances the savor of fruit salads and certain vegetable salads is obtained by sprinkling the lettuce leaf base lightly with a simple sirup made of sugar and orange juice, or lemon juice. This should be done immediately before serving so that the lettuce will lose none of its desirable crispness.

Not an Eastern Bird

The only hummingbird found in the eastern United States is the ruby-throat.

But Just Try to Cash One of These Bills

Million Dollar Note to Bear Crawford's Portrait.

Washington.—The portrait and name of William H. Crawford soon will appear on the most valuable steel engravings the world ever has seen or probably ever will see.

The engravings will be of limited distribution. They are being prepared by the bureau of engraving and printing of the United States treasury.

For those who may not recognize the name of William H. Crawford it may be stated that he was secretary of the treasury in the last year James Madison was President and remained over for service under James Monroe. Monroe, in fact, barely defeated him in the congressional caucus to nominate a Presidential candidate. Born in Virginia but reared in Georgia, Crawford was a leading figure in national affairs when they were things of great spirit. Besides being a senator, secretary of war and the treasury and envoy to several foreign countries, he found time to engage in personal and political disputes which led to at least two duels, in one of which he killed his opponent and in the other of which he was wounded.

Above the portrait and signature of

Black Again Popular

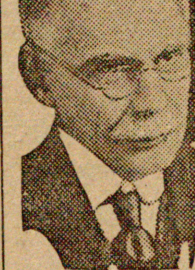

Black once more is the popular color. This smart dinner gown of velvet features the close fitted skirt line, and the demure jacket carries the new widening sleeve.

The Mysterious

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

"Most mysteries have commonplace explanations," Masefield has Hilary say to Margaret, and yet there are few things which so fascinate us as the mysterious.

I congratulate Davis on being engaged to Marie, and he looks at me in amazement.

"Well, how did you know anything about it?" he says. "We have never told a soul, and had no idea that even our best friends suspected it."

"Oh, I have a way of knowing," I answered in a tone of mystery and omniscience; and he goes away wondering. It was very simple, however, I had met the two going about arm in arm or holding each other's hands in broad daylight. They always do that now when they are engaged. The explanation is quite commonplace.

Old as I am, I still could sit for hours watching a sleight-of-hand man pull rabbits and rattleboxes out of an empty hat. The man who does the card tricks has my closest attention; and the mesmerist, though I am sure his stuff is mostly, if not altogether, fake, is a mystery to me, though I am sure the mystery is easily explained, if he would only take time to do it.

It was always a mystery to us all in college how it was possible for the dean to know so much in detail about us as individuals. We are sure that he could not possibly pick up himself all the facts he had at his tongue's end. There must have been some one, we thought, going about doing it for him. But it is quite clear to me now. He said little, but let us talk, and listened carefully. We really told him everything ourselves.

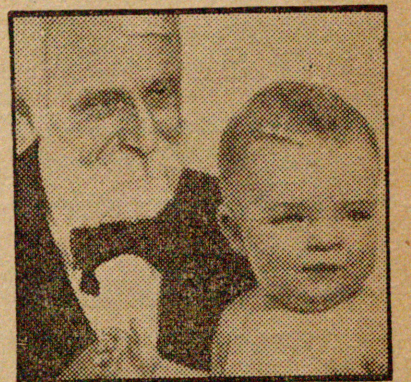

Nothing is more irritating than the person, young or old, who knows a lot about what is going to happen or what he pretends is going to happen and who yet refuses to divulge.

"I know something I won't tell," our mysteriously inclined playmates used to say. I could have brained the boy who was always pretending that he

World Has Changed

In the year 1905 I had the privilege as a young officer of being invited to lunch with Sir William Harcourt. In the course of the conversation I asked the question, "What will happen then?"

"My dear Winston," replied the old Victorian statesman, "the experience of a long life has convinced me that nothing ever happens." Since that moment it seems to me nothing has ceased happening.—Winston Churchill in "The World Crisis."

How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily half a teaspoonful of this old family doctor's prescription for the bowels.

That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies.

Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bodies active, regular, keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

Summer Training

"Reb" Russell, all-American hard-hitting Northwestern university full-back, has been keeping in shape while attending summer school by toting golf bags for his friends—gratis, of course.

Two Real Sea Dogs Visit Their Old Ship

When the rebuilt Constitution was at Newport, R. I., two of the most interested visitors were Johnnie Hood of Newport and Frederick Fries of Reading, Pa., who served on the old frigate in 1877 as chief gunners. They are here shown at one of the guns chatting over the old days.

"Painless Extraction" Applied to Dentist

New York.—Bending over a youthful patient and examining a tooth preparatory to extracting it, Dr. M. V. Sacharoff found himself looking down the muzzle of a revolver. Meanwhile the youth's assistant "extracted" \$21 in cash and \$130 in jewelry and dental gold from Doctor Sacharoff's office.

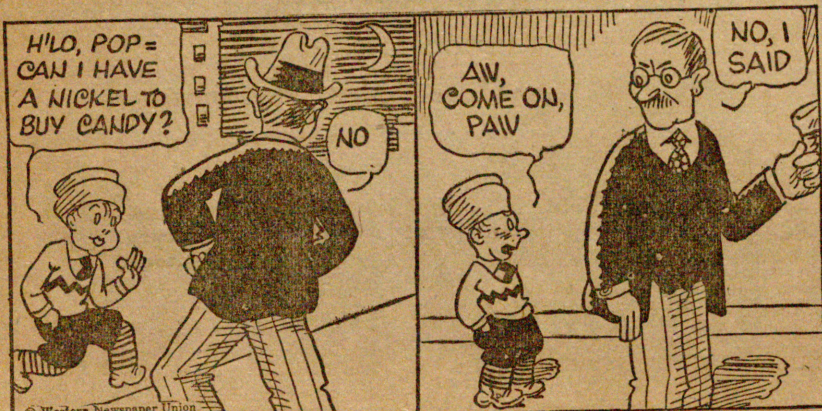

"Painless extraction, eh, Doc?" the boys said as they left.

Grasshopper Mummies Found in Yellowstone

Washington.—Mummies older than those of the Pharaohs are to be found in great numbers near Yellowstone park, it was revealed by Acting Director Cammerer of the national park service. Instead of being the remains of kings, however, they are the bodies of swarms of grasshoppers that were buried in the snow before the glaciers were formed in that region. The insects, perfectly preserved, are being found in great numbers.

A wretched man is a sacred thing.

SUCH IS LIFE— Why, of Course!

By Charles Sughroe

September long has been recognized as the ideal month for camping in Starved Rock state park on the Illinois river between Ottawa and LaSalle, but Uncle Billy Bottomley, tourist camp custodian, warns that the nights are cool and advises all campers to take more blankets than they think they will need. Four blankets to the cot will be none too many for comfort. The hotel will be closed September 8, but the tourist camp will remain open as long as there are tourists. The camp has rest rooms equipped with hot and cold showers, bubbling drinking fountains, cook ovens with plenty of fire wood, all free to the public.

If you would like to have one of the new tourist guides for the state of Illinois communicate with Honorable William J. Stratton, secretary of state, State House, Springfield, and it will be sent to you. These tourist guides give a list of the most important points in the state and also tell you how to reach them. If you are interested in any point in the state of Illinois, write to Secretary of State William J. Stratton and get a copy of this guide before starting on your trip.

Members of Gov. Louis L. Emmerson's cabinet are using the radio from Springfield to tell of the progress their particular departments have made in serving the state. The speeches were made from a temporary broadcasting station in the state house. Hon. Leo H. Lowe, director of trade and commerce; A. L. Bowen, superintendent of charities; H. H. Cleveland, director of public works and buildings; S. E. Pierson, director of agriculture; Dr. Andy Hall, director of public health, and Ralph F. Bradford, director of conservation, have made interesting addresses.

Gov. Louis L. Emmerson has appointed Charles A. Novak of Chicago chairman of the Illinois industrial commission.

Director of Agriculture S. E. Pierson, general manager of the state fair, Milton E. Jones, and Homer J. Tice, chairman of the state fair advisory board, have recently closed what is considered one of the most successful state fairs Illinois has ever had. The 1932 fair will be August 13 to 20 and these gentlemen have started to make the next fair much greater than the fair held this year.

Within the next few weeks 125 Sangamon residents will be offered work on road projects in the county. Work will commence on the North Grand avenue pavement and the pavement to be constructed from Rochester to Buckhart. The county highway department requested the state to approve the North Grand avenue pavement so that the unemployment situation would be relieved, as it means from four to six weeks' work.

For the second consecutive time Milton Tate, Knoxville, captured the Class A honors in the state fair tournament of horseshoe pitchers, winning each of his 14 games.

For the central district, embracing some 35 counties, Will Colvin's entries at the state fair received first on Delicious apples, first on Elberta peaches and first on Champion peaches.

Gov. Louis L. Emmerson is on the program for the dedication of the new Blackburn bridge at Carlinville and also the new state routes Nos. 108 and 111, Friday, October 9. This bridge is located near one of the best known historic spots in Macoupin county and will be named after Gideon Blackburn, the founder of the college by the same name.

For the first time Illinois peaches have been shipped in commercial quantities to a southern Atlantic state, carload lots having been shipped recently to Florida. Carload shipments have been and are still being made to Texas and Louisiana. In former years practically the entire crop was marketed in this state, but now about 40 per cent of the Illinois peaches loaded into freight cars are consigned to other states and are being shipped to New York, Pennsylvania, North Dakota, Nebraska, as well as those previously mentioned.

Gov. Louis L. Emmerson was on the program for the dedication of Route 78 and the new bridge over the Sangamon river near Chandlerville, Wednesday, September 2. Invitations had been sent to Jacksonville, Beards-town, Virginia, Havana, Bath, Ashland and Arenzville.

The soft coal production throughout the country has started to increase. Seven million tons were produced during one week. This indicates better times.

A commission to exterminate gasoline bootleggers is to be appointed by Governor Emmerson, expected to consist of one member from the oil industry, one from the department of finance and one from the state at large. Garrett DeF. Kinney, director of finance, recommended this in a report on gas tax evasions.

The Illinois state fair for 1931 is now a matter of history. This fair is considered to be the largest state fair in the United States and was largely attended.

J. M. Easley of Rochester, received the blue ribbon for having the largest and best display of vegetables grown inside of the city limits in the state of Illinois. This was one of the most interesting features of the Illinois state fair.

The American Legion held their annual convention in Peoria. The attendance was large.

The Illinois Press association held a meeting in Springfield, August 29, at Hotel Abraham Lincoln. At this meeting Editor W. J. Parrett, of the Danville Commercial-News, presented Governor Emmerson with a beautiful Illinois watch, on behalf of the association, and Editor W. W. Loomis, of the La Grange Citizen, presented Mrs. Emmerson with a beautiful basket of roses. The members of the association gave this dinner in honor of Governor and Mrs. Emmerson in appreciation of the faithful and able service the governor is rendering the state.

On September 22 the Illinois Commerce commission will conduct hearings relative to the contracts between the Panhandle Illinois Pipe Line company and the Illinois Power company, pertaining to the rate for the sale of natural gas which will be piped from Texas to Illinois.

Chris Guth & Son, Washington, Ill., were awarded the blue ribbon for farm colts shown at the state fair. J. H. Nickel & Son, and Albert L. Ham, Arzenville, were given the blue ribbon in the Berkshire swine classes. J. B. Freitag, New Berlin, was given the blue ribbon in the Dutch Belt cattle class.

Much interest was shown in the better baby contest at the state fair. Four children scored perfect, namely: Donald Dean Dipper, forty-five months old son of Mr. and Mrs. W. H. Dipper, of Decatur; Allan Duane Rennaker, thirteen months old son of Mr. and Mrs. Orville A. Rennaker, of Mechanicsburg; Donna Mary Hill, twenty-nine months old daughter of Mr. and Mrs. Arthur F. Hill, of 1231 North Fourth street, Springfield; and Margaret Helena Danley, forty-seven months old daughter of Mr. and Mrs. S. B. Danley, Jr., of 615 North Second street, Springfield. Dr. Andy Hall, state director of public health, was loud in his praise of the children who entered the contest. Mothers may secure books on how to take better care of their babies by communicating with Miss Anna May Price, superintendent of the library extension division, Centennial building, Springfield. Many books are now published on this subject and mothers are taking advantage of these books, and the better baby contest shows the result of this education.

More than 50,000 persons saw the health and sanitary exposition at the state fair and many experienced observers who saw the scientific units of this exhibition declared that they are superior to anything else of the kind in this country. They relate to cancer, heart disease, tuberculosis, pneumonia, typhoid fever and diphtheria. The display on sanitation included a number of special features ranging from models for private water and sewer systems to mosquito control and from the quality of public water supplies to the chemicals used in water purification. This exhibition is regarded as one of the most successful, educational projects of the kind ever carried out in Illinois.

In response to an inquiry made by Leo H. Lowe, director of trade and commerce, with regard to taxes paid under protest by insurance companies, Attorney General Oscar E. Carlstrom gives the opinion that state officers cannot be relieved of liability for money collected by them under protest by paying the money over to the clerk of the court when legal proceedings have been instituted to prevent payment of the money into the state treasury.

Residents of Hoopston are ready to believe the depression has struck bottom and is now on the upward move. Two of its principal industries, closed for more than a year, have resumed operation. The Hoopston Malleable Iron works put back all of its old men—150 in all—and has work enough for six months. The Illif Bruft Chemical works, also closed for a year, and employing 75 men, has reopened.

Classes in vocational agriculture in Illinois high schools competing in the art of erecting and explaining exhibits that teach specific lessons in modern farm practices, were placed as follows: Pittsfield, Ball township (Springfield), Momence, Walnut Hill, Tolona, Orangeville, Alexis, Tiskilwa, Rochelle, Springfield and Hindsboro.

Miss Frances Johnson of Bird, Ill., was the winner of the state fair personality contest sponsored by the farm bureau.

The Baker Manufacturing company, Springfield, was awarded first place in the \$1,000,000 machinery parade at the state fair. Plows, tractors and other machinery were in the parade. The International Harvester company took first prize for its display at machinery field. Each company was presented with a silver pitcher known as the Gov. Louis L. Emmerson trophy.

CHEESE IN FAVOR THE WORLD OVER

Probably Oldest Food in Universal Use.

With the possible exception of butter, cheese is the oldest prepared food in the world. It is meat to the French, potatoes to the Dutch, breakfast, dinner, and supper to the Swiss. In Paris every restaurant worthy of its name has a cheese cellar. The French chef would be as lost without eggs—cheese creeps into his delicacies at every turn.

In Alkmaar, cheeses are auctioned off every Friday. On the day before, wagons and boats laden with cannon-ball cheeses come to town from every direction. The auction begins at ten o'clock sharp. The bidding starts to the strains of Lohegrin's wedding march played on a wonderful old carillon. At some of these auctions, 125,000 little Edams are sold in a single day.

Today there are 500 varieties of cheese—all made of milk but all treated differently. The variations in cheeses are often due to locality, breed of cows, and atmospheric conditions. Many of these cheeses which originated in foreign countries are produced under laboratory conditions in the United States today. Roquefort cheese is an example; it has been made for 800 years in Roquefort, France. Excellent Roquefort cheese is manufactured in America at the present time.

In all times and all ages food-stuffs have acquired a host of traditions, some true and others violently erroneous. Cheese enjoys no exception to this rule. Some people pronounce it "rich" and say that only small amounts should be eaten at any time. Other traditions have grown up about the time and way it should be eaten. The most absurd of these warns against the use of cheese at the evening meal because it supposedly causes bad dreams.

There is no need to trust to tra-

dition in this matter, according to nutritionists of the National Dairy Council. Exhaustive studies undertaken by the United States Department of Agriculture have revealed the truth, so that anyone who wishes can use cheese to his own best good. Tests reveal that cheese is from 90 per cent to 99 per cent digestible.

The Election Bet

Former Mayor Thompson was talking to a Chicago reporter about the city's empty treasury.

"It's unique," he said. "The rich city of Chicago is in as queer a fix as the chap in the hatter's."

"A chap in a hatter's, after he'd tried on nearly every hat in the place, said he wanted a finer, softer quality of felt."

"But this line," the hatter said, "is really very superior, sir. You really can't do better than this."

"The chap examined the hat again. 'No,' he said. 'It's not tender enough. You see, I've got to eat it.'—Detroit Free Press.

This Machine Age

Studies of how machinery causes unemployment by replacing man power have been made from time to time during the past fifty years. The latest study of this kind, made for Collier's Weekly, reveals a razor-blade machine which takes the place of 500 men, and a railroad switching device which supersedes 108 men. Machines have now displaced 9 out of 10 shoe workers, it is shown.

Nut Trees in Variety

In Baldwin, L. I., on the main business street within 800 feet of the railroad station is the largest collection of nut trees in the country, and for that matter, in the world. Not the largest in area, for it covers less than seven acres, but in its confines are more varieties of nut trees than are to be found elsewhere.

Unless They Are Spry

Prof.—What people are scattered all over the earth?

Class (in chorus)—Pedestrians.

VOCABULARY INDEX TO MENTAL ABILITY

Vocabulary is a fairly reliable index to a person's mental ability, states Calvin T. Ryan in an article "Speech Habits and Personality," in Hygeia Magazine. A man's language is considered the shaper of his thoughts and no longer as a mere conveyance of thought, he declares.

Precocious children who learn to talk before the normal age have been found to have abnormally large vocabularies and to be above the average in intelligence, Mr. Ryan writes. The children who begin to talk later than the normal period have been found to have small vocabularies for any certain age and to be below the average in intelligence.

We are called a lip-lazy people, says Mr. Ryan. We are told that we do not love our language. Boys and girls graduate from high school, go into college and professional school without learning to speak grammatically. They have never been taught the seriousness of speech habits, and they do not realize that a listener is entitled to think that a slovenly speaker is a slovenly thinker.

Thanks to our modern science, mental and physical, we are now able to recognize the cause and effect of speech abnormalities and to do something for most of them. Speech clinics are becoming almost as popular as baby clinics were 25 years ago and ways have been found to remedy stammering, stuttering and organic malformations of the organs of speech.

Parents and relatives of young children who set a bad example by incorrect speech are deplored by Mr. Ryan. For the normal child, learning to talk is not only a great event but a great task. If he is normal and acquires habits that are abnormal, the result is nothing short of a disaster.

A public benefactor must not be too sensitive. The mean will question his motives.

Looking to Alaska for Supply of Pencil Wood

The pencil wood supply near large factories is practically exhausted and the industry is now investigating the possibility of utilizing Alaska red cedar, the finest-grained wood of the Northwest. Cedar wood intended for lead pencils must be soft, light yet strong, close and straight-grained and free from defects. The older the tree the better pencil wood it makes. The wood from the heart of aged logs that have lain in the deep woods for years makes admirable pencil material. A possible substitute for cedar in lead pencils is Pacific coast myrtle. Its wood is light, straight-grained, well-scented and of good color. Both cedar and myrtle woods are immune to the effects of quick climate changes.

Synthetic Sunlight

Experiments in London by the National Physical laboratory have shown that artificial sunlight, shining through imitation windows to further approximate the effect of real daylight, will speed up the production of night workers. The eyes are more comfortable under conditions as nearly approaching natural daylight as possible and better vision produces better work. In the experiments coloring of the light to approximate the sun's rays was found to be of paramount importance.

O Well!

"What is the date?"
"I don't know, but look on the newspaper you have in your pocket."
"That is no use—it's yesterday's."
—Berlin Ullk.

The Shock Cure

"I have the hiccoughs—please frighten me."
"Lend me £5."
"Thanks—the attack is over."
—Zurich Nebelspalter.

Proud Papa—Darling, our baby smiled at me.
Sweet Mamma—Then he has a sense of humor, Henry.

BIGGEST TIRE VALUES bring RECORD SALES

CAR OWNERS have shown their appreciation of Firestone extra values by giving Firestone Service Dealers a record-breaking business. During May, June and July more car owners came into Firestone Service Dealers and Service Stores and bought more Firestone Tires than in any like period in history.

Firestone Tires with two extra cord plies under the tread and the patented process of Gum-Dipping with uniform quality and the Firestone name and guarantee on every tire give greatest safety and greatest values at no higher cost than special-brand mail-order tires, made by an unknown manufacturer who takes no responsibility for your safety or your service.—Firestone control every step in tire making with only one small profit from Plantations to Firestone Service Dealers and Service Stores.

Drive in TODAY and equip your car with Firestone Gum-Dipped Tires—the safest, most dependable tires made.

Listen to the VOICE OF FIRESTONE every Monday night over N.B.C. nationwide network

East Indian Time
The Samvat year is generally used
in reckoning time in India, except in
Bengal. According to tradition it was
introduced by King Vikrama in 58 B.
C. A Samvat given date represents
the year last completed.

Mrs. John Storm of Marley, 60, Dies

Mrs. John Storm, aged 60 years,
died Friday, September 11th at her
home in Marley.

Ruby Mae Walters was born in
Iowa City, Iowa, January 29, 1871.
When she was three months old,
her father died, and the mother, in
order to be with relatives, brought
the family to Channahon, Ill. Seven
years later she also died and left
Ruby Mae to the care of an uncle
and aunt. As a girl she united with
the Methodist Church of Channahon
and later became an active worker
in the Hadley Baptist Church while
she was serving as a public school
teacher in that community.

On Nov. 10th, 1897 she was united
in marriage with John Storm of
Marley. To this union four children
were born, Anna, Mary, Leonard
and David. Mary and David died in
infancy.

Mrs. Storm was always interested
in the education of children, having
served as a school teacher before
her marriage. At the time of her
death she was a member of the local
school board.

Mrs. Storm was preceded to their
eternal home, by one sister, Mrs.
Catherine Thompson who died about
five years ago. She leaves to mourn
her passing on one other sister, Mrs.
Elizabeth Barclay of Kansas City,
Kansas; her husband, John Storm, 2
children, Anna and Leonard, all of
Marley. Besides her immediate fam-
ily she leaves a host of other rela-
tives and friends who will miss her
cheery smile and friendly greeting.

Funeral services were held at the
Marley Community church, Sunday
afternoon at two o'clock with Rev.
Mr. Wakeland, officiating. Interment
was in Hadley cemetery in the
town of Homer.

PATENT EXPOSITION IS VERY INTERESTING

The Second International Patent
Exposition, which opened Monday,
Sept. 14 at the Merchandise Mart,
Harry G. Green, sponsor of the ex-
position states, will continue to and
including Sunday, Sept. 27th.

"Approximately 400,000 visitors
are expected to view the exhibition
of over 32,000 of our new inven-
tions," Mr. Green says, "during the
period the second international pa-
tent exposition is in progress.

"Over 25,000 inventors—1,725
from 22 countries other than the
United States—are represented at
the second international patent ex-
position. Their work is represented
in a multiplicity of new devices,
some of demonstrated practical val-
ue, many acknowledged as freaks, a
great many oddities, and quite a few
which will undoubtedly become in-
dustrial aids.

"Included in the exhibits at the
second international patent expo-
sition," Mr. Green continues, "are
over 3,000 new automotive devices,
900 new aviation aids, over 300 ra-
dio patents, thousands of household
items, a great variety of combina-
tion agricultural implements, several
thousand time and labor saving de-
vices, and latests television and film
transmission developments.

"The television apparatus is in ac-
tual operation, giving shows twice
hours daily during the second in-
ternational patent exposition.

"During the second international
patent exposition several honor days
will be held for distinguished person-
ages. These include Major General
George O. Squier, noted inventor of
the monophone, Liberty motor, multi-
plex telephony, wired wireless, and
other inventions; General James G.
Harbord; John T. McCutcheon, fam-
ous cartoonist of the Chicago Tri-
bune; and Arthur Brisbane, renowned
editorial writer.

"American Inventors' Day will be
held on September 26 at which time
it is expected that over 1,500 Amer-
ican inventors will view the expo-
sition."

Will Co., Seek Cut In County Expenses

The newly organized taxpayers of
Will County presented the following
communication to the County Board
during their session last week relat-
ive to cutting down county ex-
penses:

"The enclosed resolution was unan-
imously adopted at a meeting of
representative farmers, taxpayers
from each and every township in
our county, held in the courthouse,
September 2, 1931, at which the
board of review members were pre-
sent.

"The assemblage organized by elect-
ing Mr. Homer Grommon of
Wheatland township chairman and
Healey N. Alexander of Lockport
secretary.

"Resolved, that it is the consensus
of opinion of the meeting of tax-
payers that the board of supervi-
sors of Will County be instructed to
reduce the wages of county appoint-
ive officers in the same ratio as the
reduction of the cost of living.

"And be it further resolved that
all unnecessary offices be stricken
from the pay roll."

The county board placed the com-
munication on file, but did cut off
\$68,000 from their annual appropri-
ation budget. They cut the traveling
expenses of the county superinten-
dent of schools from \$1,000 to \$200

VOTERS IN NEW CONG. DIST. WANT WOLF RD.

FINISHED IN WILL CO.

(Continued from first page)

that the right of way can be had and
the route is already surveyed.

Since the congressional district
has been re-apportioned and now
takes in Orland, Bremen and Rich-
townships in the southern end of
Cook county, interest in the comple-
tion of Wolf road in Will county is
all the more keen.

The sentiment has already devel-
oped in this section of Cook County
and in the northeastern part of Will
county that inasmuch as the Will
county road officials are indiffer-
ent about finishing the one mile of pav-
ing in Will County south of Mokena
that the people of this district must
look to the senator or congressman
to help get the needed action to see
that the job is finished, but the vot-
ers of this district also realize that
AN ELECTION is coming on within
a few months when they will be
asked to support certain candidate
for office, but these same voters
are already making reservations to
the effect that they will vote only
for those candidates who will un-
mistakably demonstrate to the vot-
ers that they have the voters and
tax payers interest at heart by giv-
ing the people of the new district
what they want, the people want, by way
of the completion of the paving of
the Wolf road from Mokena to the
Lincoln highway.

ORLAND LAKE PROJECT MAY BE MADE INTO FISHERMAN'S PARADISE

(Continued from first page)

Mr. Cowan gave a brief outline
of the project since 1916 with a
plea that it not be sidetracked long-
er. He pointed out that unless an
appropriation was made out of the
2½ million dollar bond issue now
being spent, it would be many years
before another such issue was voted.
The original plan of the Preserve in-
cluded dredging with the necessary
dams at an estimated cost of \$24-
000. Representatives of the Blue Is-
land Chapter of the Walton League
made a plea that only one dam be
built at this time and that the re-
sulting lake be left as a natura'

Collecting 2 Full Insurances On One Car Impossible

Vitus Blair of Tinley Park, ar-
rested last week on a state warrant
charging obtaining of money under
false pretenses by having his Chev-
rolet car insured in two different
companies and trying to collect
double loss after it was destroyed by
fire, has been released.

An agreement was reached in
Judge Frank J. Synakiewicz's court,
Tuesday noon whereby he gives up
the new Chevrolet he bought with
the money obtained from the insur-
ance of the old car, returning the
new machine to the Freeport Motor
Casualty Company of Freeport, in
lieu of prosecution. Thus Blair lost
his old car by fire (August 5th un-
der somewhat suspicious circum-
stances so the insurance men claim),
the \$630 paid for the damage and
the new car.

Fred Goebel of Tinley Park,
agent for the Freeport Company
wrote the insurance June 25th, in
the amount of \$650, the applicant
stating "that there was no other in-
surance on the car." It had been
previously insured by the State
Farm Mutual Co. at Bloomington in
the amount of \$595. After the fire
on August 5, the Freeport Company
settled for \$540 and an allowance
of \$90 for the wrecking, Blair keep-
ing that by agreement. This settle-
ment was August 12. He then trad-
ed the burned car in on a new one
and sent two letters to the company
at Bloomington to try and collect on
that policy. Both companies sent at-
torneys to the trial. Under the law
if more than one policy is taken out
on a car, neither are good, Blair
made every effort to keep himself
from jail, hence the agreement to
sacrifice the new car.

BIG ROAD MEETING AT ORLAND SATURDAY NIGHT

(Continued from first page)

each organization for the purpose of
pushing the completion of the pav-
ing of this road in both counties.

All Will County Wolf road boost-
ers are invited to attend the meet-
ing. The Southwest highway question
as far as Cook County is concerned
is now settled and this highway is
soon to be a completed reality in
Cook County.

The Orland Lake project will also
be taken up Saturday night.

feeding ground for migratory birds
and fish. They were very enthusias-
tic (?) over the whole project and
are going to present it to the
County Board of Commissioners at
their next meeting.

Several other speakers told of
their interest in the project. Rev.
Sanders and Father Gorey hoped
that it would be made into a fisher-
man's paradise and not into a swim-
ing "hole". Dr. Dep of Blue Island
and Dr. Blodgett of Chicago Heights
both pointed out the need for such
a place in Cook County and the
pleasures that young and old alike
would have in such a preserve.

About 75 persons went home with
the feeling that another "push" had
been given this very desirable pro-
ject.

S. W. CHAMBER OF COMMERCE HOLDS A ROUSING MEETING

(Continued from first page)

a strong bid, stating that they had
had a hard fight for the last ten
years securing routes 47, 48 and 49
and that these routes all connected
at Gibson City, but that route 48
still had a gap of about ten miles
south of Gibson City and they would
like some help from the organiza-
tion in getting this gap paved. Gib-
son City was selected as the meeting
place for October.

Mr. Dermott introduced Mrs. A.
J. Fleming, County Commissioner of
Cook County. She is a very enthus-
iastic worker for the Southwest high-
way and has sponsored a resolution
to the County Board Highway De-
partment putting this project in the
1932 program, and the securing of
right of way to complete this road
from Orland Park to Alpine is now
under way.

A real road builder in Cook Coun-
ty, Hon. A. J. Bird, chairman of the
Road and Bridge Committee of
Cook County, gave the assurance
that Cook County will have this
road completed in Cook County be-
fore the World's Fair. He advanced
two reasons why the road should be
completed now: first—the unemploy-
ment situation; second—the neces-
sary need of the road.

Hon. Michael F. Henneberry of
Williamington, representative of the
Custer Park district said the South-
west Highway will be built in the
near future and that it is the miss-
ing link in the sixty million and the
hundred million dollar bond issue
and he will do everything to aid the
cause.

Rep. Frank Foster of the 7th dis-
trict from Harvey stated that at the
last session of the General Assem-
bly a commission to study secondary
roads was appointed. The Commis-
sion consisting of seven members
including State Highway Engineers
were to make a report back to the
next session. He further stated that
the gas tax is coming in so fast that
he thought the sixty million and hun-
dred million dollar issues will be
paid off much faster than antici-
pated and that this committee may
report that it is possible to finance
the Southwest Highway thru this
source. He said it would be advis-
able to keep in touch with this com-
mittee, finding out when they are
in session and sending a delegation to
see them.

Another lady from Cook Coun-
ty, Hon. Mrs. Glenn E. Plumb, com-
missioner was introduced. She stated
it was very important for com-
munities to get together, to check
up and see that they have sufficient
local representation and keep after
the representatives and other pub-
lic officials.

Hon. Wilson of Kankakee County
was the next speaker and he also de-
clared he will do everything to fur-
ther the interest of this road; also
that he will vote for the appropria-
tion to put this road thru Kankakee
County.

Hon. J. L. Walker from the Cus-
ter Park district stated that the sit-
uation at Springfield was hard to
deal with regarding this road, be-
cause the roads under the two bond
issues must be completed first, but
but that they are trying to get the
Southwest Highway into a special
call.

Other speakers were: Hon. Will
H. Smith, Sup. of Highways of Will
County; Supt. James Harding of
Williamington; Frank Harnew, mayor
of Oak Lawn; Mayor of Essex; Fred
Francis, Chairman of the bond issue
committee of the hard road system
of Will County; Mr. Mapfield of
Manhattan. All of these gentlemen
pledged their co-operation.

MOKENA, ILL.

MOKENA

There will be a lecture at the Mo-
kena M. E. church, Friday, Sept. 25
at 2 p. m. standard time by Mrs.
Corwin of Joliet who will demon-
strate and explain the merits of the
Viavi treatments and preparations
by the use of charts, showing the
many uses of the medicine and oil
used on the body during the treat-
ment and manipulations of the at-
tendant on the patient. Everyone is
invited.

A movement is on foot to organize
a high school band and glee club at
the Mokena school.

The Lilac Unit of the Junior Gar-
den Club held their meeting at the
school, Monday, Sept. 14. A test was
given of 15 flowers. Eleanor Hall
was given a cactus as door prize.
Beulah Weedon and Eleanor Hall re-
ceived their badges for flower know-
ledge. The next meeting will be held
at the home of Evelyn Wachter on
Monday, October 12.

The Iris Unit of the Junior Gar-
den Club met at the home of Mrs.
Albert Braun Saturday, Sept. 12th.
The Unit decided to meet at the
home of each member. They also
had a flower test and looked at flow-
ers. The next meeting will be held
at the home of Eileen Walsh, Sept.
26th.

The Gladiola Unit of the Junior
Garden Club met at the home of
Mrs. Harry Mall. Badges were given
and some of the members have five
badges. The next meeting will have
a special feature by way of exchang-
ing seeds. The meeting will be held
at the home of Elsworth McGovney
the first Monday in October.

CARD OF THANKS

We wish to express our sincere
thanks to our relatives, friends and
neighbors for their many acts of
kindness and sympathy shown us
during the illness and death of our
dear mother, Mrs. Florence Lauffer.
We also wish to thank Rev. E. L.
Cook and Rev. Theodore Lapp for
their comforting words, and also the
singers and for the many floral of-
ferings and all those who so kindly
donated the use of their cars.

THE CHILDREN

Leonard Paulson who broke his
arm playing at the school before
school opened, is doing nicely.

Mr. and Mrs. Phillip Barenz and
children and Mrs. Mary Barenz
motored to Bourbonnais, Ill., to
visit relatives, Sunday.
